Dean Harvey Vetstein
Advisor

The 1977 CAULDRON

Roz Drawas

The 1977 Cauldron is dedicated to two very special people, very special to me, anyways, Rosalyn Drawas, otherwise known as Roz, and Mary Beth Haughn, otherwise known as Beth.

Roz is the Program Director in Student Activities. She came in July, 1973, after graduating from Elmira College in New York. She is the advisor of Social Council and is responsible for both their success and the success of their programs.

Roz is one of the kindest people around campus who really cares about students and always tries to help them. For those who don't know her, you may have seen her trucking around the back quad with her dog "Elsie," pictured below, or over the Cask.

DEDICATION

Mary Beth Haughn

Mary Beth Haughn can most frequently be seen in 255EC, the Student Activities Office, passing out keys to study rooms, scheduling meetings, or supervising ID cards.

Beth first came to the university in the Fall of 1972, to work for Dean Vetstein. She has stayed with us for five years and many people hope she will stay for many, many more.

It has been said that a dedication is a very personal thing, and these two people have helped both me personally and the Cauldron this year and so, it is only fitting that we pay tribute to two of the nicest unselfish people in the university and say thank you, Roz and Beth.

OFFICE OF THE PRESIDENT

Message to the Class of 1977

I extend my sincerest congratulations to each member of the Northeastern Class of 1977.

As you reach this important milestone in your life, I am sure you are filled with mixed emotions. Very deservedly you should feel a keen sense of pride in your academic accomplishment which has brought you to the point of graduation. At the same time, I am sure, you sense how much more there is to learn. I am sure that you now feel some of the frustration which faculty members continually face and recognize that only the beginnings of education can be crammed into an undergraduate curriculum. Whether you go on to further graduate study, professional training or simply commit yourself to a program of reading and self-improvement, I hope that education has become a part of your life and the learning experience at Northeastern will serve you well as a foundation for a lifetime of continued learning.

I would hope that you approach graduation with an enhanced appreciation of your own compentency and the nature of the world in which we live. Through its courses of instruction and the experience of cooperative work assignments, Northeastern continually strives to provide students with the opportunity for self-appraisal and a chance to understand in realistic terms the nature of the professional fields and the reality of the adult working world. Contact with reality is an essential part of the educational process. The real world may on occasion seem harsh, unfair or may not measure up to the idealistic dreams and aspirations of young people. But all of us must learn to cope with the realities of our time and only by fully understanding the existing world can we hope to effect significant change and improvement.

As you graduate from the University, I hope you will carry with you many fond memories of friendships and enriching experiences which have been a part of your university life. I strongly believe that as the years pass, you will have an enhanced appreciation of your University and the value of the education which you have received here. You can be sure that, as you proceed to further education or to careers in business, industry, public service or other professions, your friends on the University faculty and administration will follow your careers with great interest. We are all proud of your past accomplishments and sincerely hope that the future years bring you personal happiness and great success in whatever career you undertake.

Kenneth G. Ryder

Kenneth G. Ryder
President

Professor Robert Vozzella of the Co-op Department, advisor to the Class of 1977, has devoted long hours to helping us coordinate the Senior Activities. He has been very instrumental in helping us accomplish what at first seemed the impossible. For this, we say thank you.

HISTORY

NORTHEASTERN UNIVERSITY

Northeastern: Its Origins and Development 1898-1977

The History section of the Cauldron is concentrated on the dedicated men of Northeastern's past. We have selected men whose services were seen to be outstanding by the Corporation at one time or another. They have been remembered by having a building named in their honor at one time or another.

Although the following pages are not of all the buildings, we have reviewed the history of some of the university's finest men. Besides a pictorial collection of some of the men and the happenings in the particular buildings, we have included a brief summary of the distinguished careers of each man.

Included in the following section are the three Presidents of Northeastern's past, Franklin Palmer Speare, Carl Stephens Ell, and Asa Smallidge Knowles, the first dean of students and the university's first athletic director.

The idea of this special section is to briefly acquaint you with some of Northeastern's founding fathers and inspirational men. The services these men put in was instrumental in making Northeastern a major university.

— M.C.

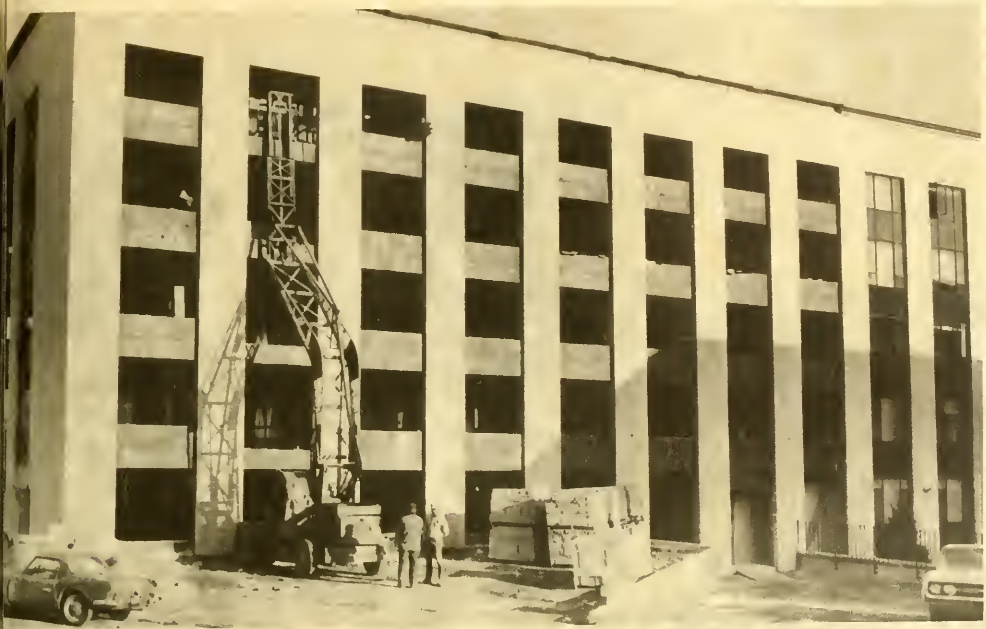
Speare Hall

Frank Palmer Speare

Speare Hall is named in honor of Northeastern's first president. Speare served as president for 23 years after being the director of the Evening Institute and Boston YMCA's School of Law since its establishment in 1898.

Speare also served as the Supervisor of Polytechnic School. During this time he also conducted the Evening Preparatory School courses. Both of the previous schools were part of The Lincoln Institute. Subsequent serving director, he was Dean of the School of Law for 11 years.

While president, he became a member of the Corporation and Board of Trustees, for 16 and 14 years respectively. During this time, he served on various



committees, including Funds and Investments, Facilities and Development.

Speare instituted new programs, classes, and schools. He often took the task of following up on his ideas personally.

For his outstanding achievements, Speare received an honorary Doctor of Law degree from Northeastern, Harvard and the University of New Hampshire.

The building named after Speare, Speare Hall, was primarily an exclusively female dorm, but in the Fall, 1976, went co-educational. Speare Hall is located on a street also named after him, Speare Place.

Ell Center

Carl Stephens Ell

The second university president started in the university administration ranks as the Dean of the Lincoln Institute. His other contributions to the Institute included being named Dean of the Evening Polytechnic School and Director of the Engineering and Tech schools.

These positions overlapped with his duties in the College of Engineering where he was dean for 29 years. He was also Dean of the day division of students for four years. Ell was also dean of the College of Business Administration for many years.

A graduate of MIT, Ell was often referred to as "Mr. Northeastern." During his 19 year span in office, he helped widen the university's friends and financial contributors. He also helped the University Co-op Dept. establish a permanent faculty.

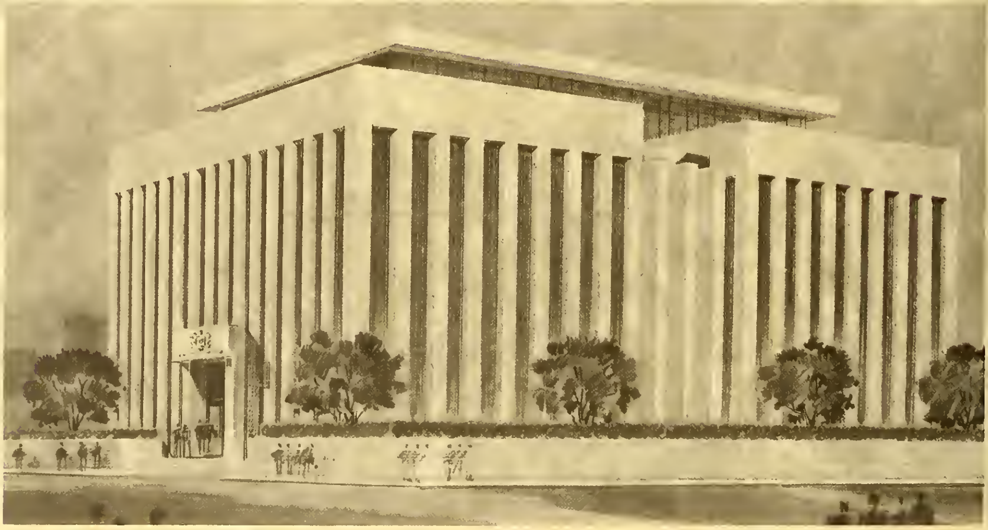
Often looked upon as the reason for Northeastern's being a major university, Ell has received six honorary degrees in Education from various universities including Northeastern, Tufts, and Boston University.

At an anniversary dinner, Ell's successor, Asa S.

Knowles, praised him for his efforts, "whose leadership throughout half of a century inspired courage and fidelity in his colleagues and helped them build on ever finer institutions of learning.

In the last year of his presidency, the Student Center was dedicated in his honor. The building has many varying uses and serves as a vital structure for the many student activities.

Knowles Center for Law and Criminal Justice



Asa Smallidge Knowles

The third president of Northeastern started his career as an Industrial Management teacher. He later became a professor and then head of the Industrial Engineering Department.

Knowles was also the Director of the Bureau of Business Research while serving as the Dean of the College of Business Administration. He later became a member of both the Corporation and the Board of Trustees.

Before becoming president of Northeastern, he was president of the University of Toledo where he received a citation for his distinguished service.

ASA S KNOWLES
CENTER FOR LAW
AND
CRIMINAL JUSTICE

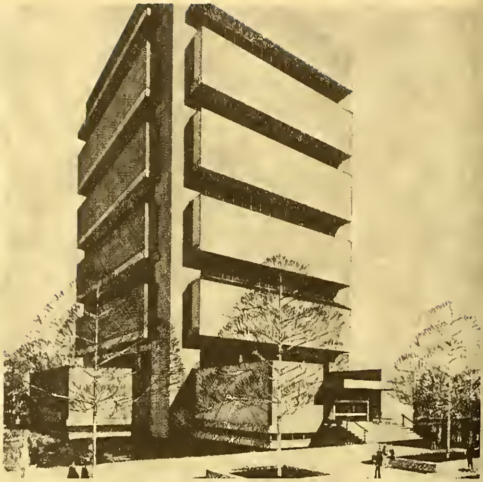
While at Northeastern, Knowles undertook what has been called the "miracle of Huntington Avenue." During his period as president, 12 new buildings were erected, showing an increase in the academic programs at Northeastern. He also created many new administrative positions for greater efficiency. He was also responsible for the institution of University College, and the merger of the Evening School of Business with the College of Business Administration.

For his distinguished service to higher education, he received citations from Berger Jr. College and Thayer Academy. He was also admitted into the fellowship in the Institute of Industrial Administration in London.

The building named after Knowles is now the Center for Law and Criminal Justice.

— M.C.

Dodge Library



Robert Gray Dodge

A former attorney at law, Robert Gray Dodge became a member of the Corporation and the Board of Trustees in 1936. He served as Chairman of both upon his arrival. After his thirteen years of service, he became honorary Chairman of the Corporation and Board of Trustees, and joined the Executive Committee.

Dodge was honored by Northeastern with an honorary Doctorate of Law in 1948.

The building named after him is the main library on campus.

— M. C.

White Hall

WHITE HALL
DORMITORY
NORTHEASTERN UNIVERSITY

William Crombie White

White's career at Northeastern began as a teacher in the College of Engineering. He later progressed to Acting Dean and Director of the Day Colleges in Engineering. He finally served as the Executive Vice President and Provost of Northeastern.

Both a member and alumni term member of the Corporation, White received an honorary Doctorate in Engineering from the University.

The building named in his honor is presently a co-educational residence hall on Forsyth Street, formerly known as the West Dormitory for Men, now known as White Hall.

—M. C.

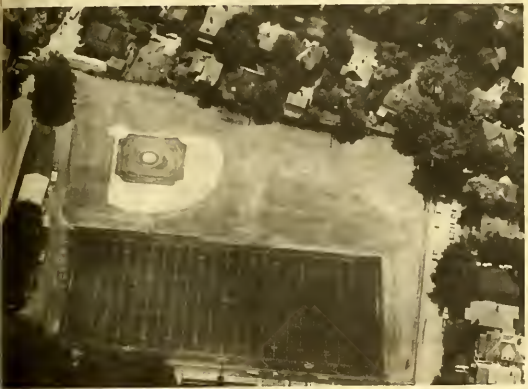
Melvin Hall

Harold W. Melvin

Melvin joined the Northeastern faculty as a member of the English Department. The very next year he became the Chairman of that department and stayed in that position for eight years. During his latter years, he also served as Northeastern's second Director of Student Activities. What Melvin is noted for however, is the role he played as Northeastern's first Dean of Students.

The building commemorating his service to Northeastern is a dormitory located at 90 The Fenway.

Parson's Field



Edward Snow Parsons

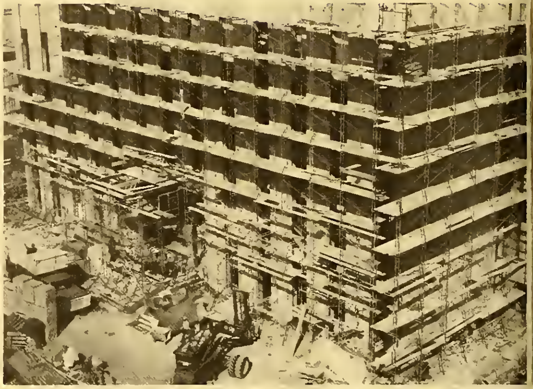
Edward Parsons succeeded Harold Melvin as Director of Student Activities, and also served as Director of Health and Physical Training. He also served as the Business Manager for Northeastern and later became the Vice-President of Business.

Parsons, who was a member of the Corporation, is best remembered for his post as Director of Athletics where he served for 28 years. While Athletic Director, he gained national recognition from his position as a district vice-president of the NCAA and his service on the U.S. Olympic Association.

The Kent St. athletic field was named Parsons Field in recognition for all he has done for Northeastern and the Huskies.

—M. C.

Mugar Life Sciences Building



Stephen P. Mugar

The president of the Star Market Company, Stephen Mugar, served as an invaluable member of the Corporation from 1960.

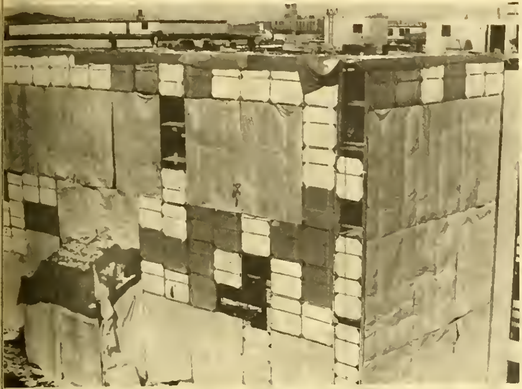
Additions to the building were completed in 1975, confirming the increasing need of life sciences, which Mugar was aware of.

The life sciences building named after him was dedicated to him and his parents, Sarkis and Vosgitel, in 1963.

Mugar Building is located in the Robinson Parking Lot and is the center for biology and various Engineering departments.

—M. C.

Hurtig Hall



Edward L. Hurtig

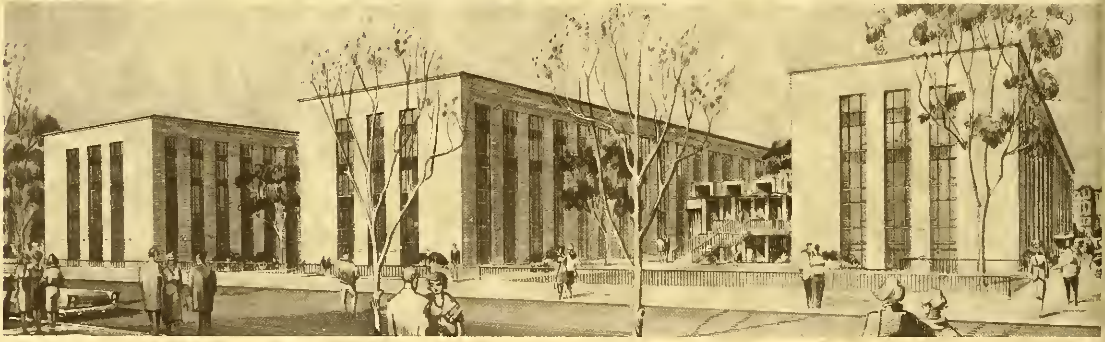
The Hurtig Building was named in the memory of Edward L. Hurtig, an alumni of Northeastern, who died in World War II.

The Chemistry Building was dedicated in 1969 by Hurig's brother, Carl, who was a member of the Corporation and the National Council.

The building is located in the Robinson Lot and houses graduate and undergraduate laboratories, offices, the Chemistry Library, and a meeting room for the American Society of Chemistry.

— M. C.

Stetson East and West



Charles Stetson

An attorney-at-law, Charles Stetson joined the Corporation and the Board of Trustees in 1936, and remained there for 17 years. While a member of the corporation, he served on various committees, among them, the Committee on Development, Committee on Funds and Investment and the Executive Committee.

When the need for co-ed housing was increasing, the formerly all female dorm on Speare Place was added and appropriately named after him.

—M. C.

COMPANY
PAINTS

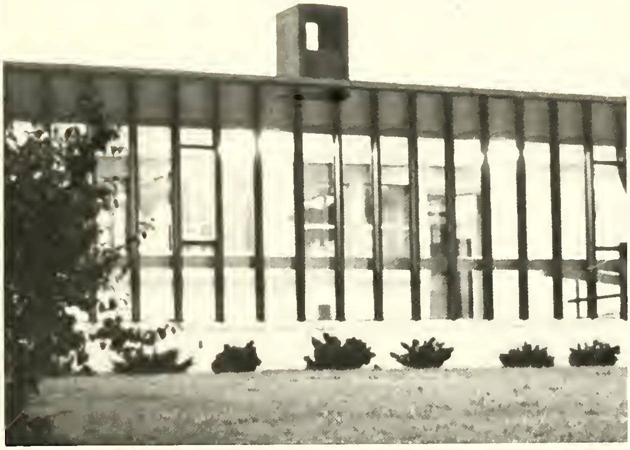
Northeastern was the first greater Boston university to establish a suburban campus, that campus, located in Burlington. Unlike the other campus which deals specifically with one of the colleges, Burlington offers a much wider choice of schools, on both the graduate and undergraduate levels.

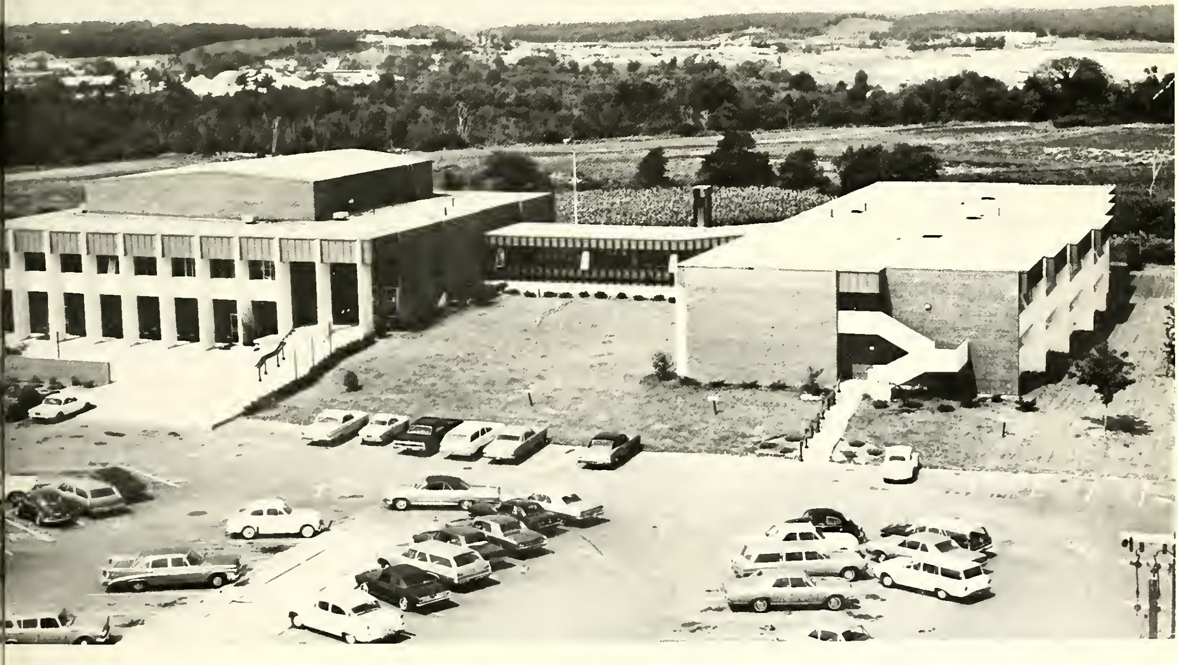
On the graduate levels, courses leading to a Master of Science in Engineering or Science, Business or Education are offered. Courses are also available for engineers and scientists who want to keep up with advances in their fields.

On the undergraduate level, programs are available leading to a Bachelor of Science in Business with a management concentration. Bachelor programs are available in Engineering with an Associate degree in Engineering Technology also available. For Freshmen, full-time courses are available in Business, Education and Liberal Arts. Special programs for women are held in the morning hours for housewives which lead to the Bachelor of Science degree.

The campus also accommodates rooms for forums, symposiums and lectures conducted by specialists and reputable authorities. Rooms are also available for professional groups and societies.

— M. C.





Located on a small peninsula jutting into the Atlantic, the Edwards Marine Science Laboratory is the center of Northeastern's Nahant campus. The laboratory is named in honor of David and Edna Edwards. This couple devoted many hours to the promotion and advancement of the ideals of Northeastern.

The director of the Marine Science Institute is Dr. Nathan W. Riser. He has been there since the institute's inception and is the motivational force of the international reputation the center has acquired. Its research in Marine biology brings summer visits from representatives of other universities and the Smithsonian Institution.

The research at the institute is done mainly by NU's grad students who work there full-time three days a week.

A number of research papers and reports have been published on the institute in various scientific journals, on the aspects of marine biology. This is the primary concern of the institute: research and reporting on new findings.

The only one of its kind in New England, the institute and Northeastern are very proud of the reputation it is making and has made for itself in the field of marine biology research.

— M. C.

Often referred to as "an outdoor lab for the Boston Bouve College," the Warren Center in Ashland is used by the students majoring in physical education and recreation education. At various times in their five-year program, Bouve students can live at the Warren Center to gain practical experience and outdoor education.

The Departments of Physical and Recreation Education conduct six week camps during the summer for the severely handicapped. This program is run in conjunction with the Easter Seal Society's program. The facilities available at the Center have been specially prepared for the handicap children.

The Center provides the necessary education to prepare students to be directors of camps, playgrounds, park and industrial recreation and health programs. It also prepares students to teach in elementary and secondary schools, colleges and universities. The Center can also include preparation to coach or direct sports and athletics programs.

The Hayden Lodge, also located at Ashland, has dining facilities for 200 people, offices for the director and his secretaries, a faculty conference room, a library, and accommodations for overnight guests.

— M. C.

A SPECIAL TRIBUTE TO

HERBERT WENDELL GALLAGHER

No other man is more revered and synonymous with Northeastern athletics than Herbert Wendell Gallagher. For 45 years he participated in our athletic program as a player, coach and finally Athletic Director, a truly remarkable contribution.

As a baseball, hockey and soccer player at Northeastern for five years, he accumulated 9 varsity letters and, in addition, was named to both baseball and hockey All New England.teams.

As the coach of freshman and varsity baseball and varsity hockey teams, athletics at N.U. prospered. In 1948, his fellow coaches voted him New England Hockey Coach of the Year. As Athletic Director for 21 years, Northeastern attained prominence and distinction with championship teams in hockey, cross country, indoor and outdoor track, baseball, basketball and an undefeated bowl-bound football team. He introduced rowing at Northeastern and under his guidance, the crew team won the Dad Vail Championship, two Eastern Springs and three visits to the Henley-on-the-Thames Regatta.

Outside of Northeastern, he has served as president of the New England Athletic Conference, the Greater Boston Athletic Conference, the Eastern Association of Rowing Colleges, the Intercollegiate Ice Hockey Association and the American Hockey Coaches Association. He also served as the Chairman of the NCAA Ice Hockey Rules Committee and the U.S. Olympic Hockey Committee. He has been the recipient of the Sheaffer Pen Award for Outstanding Contribution to Hockey and has been inducted to the Collegiate Hockey Hall of Fame as well as the Northeastern Athletic Hall of Fame.

Northeastern University is proud of Herb Gallagher. We are proud of his unselfishness in giving his time and effort to make Northeastern's athletic program formidable and respectable. We are proud of the many contributions that he made in athletics, and more importantly, the effect that he has had on so many young lives.

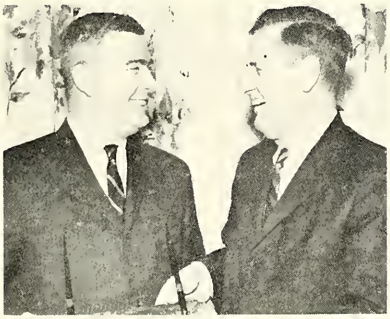
To Northeastern's Number One Sportsman and Sports Fan . . .

THANK YOU

The Hockey Player
1933-34

NORTHEASTERN
The Young Coach

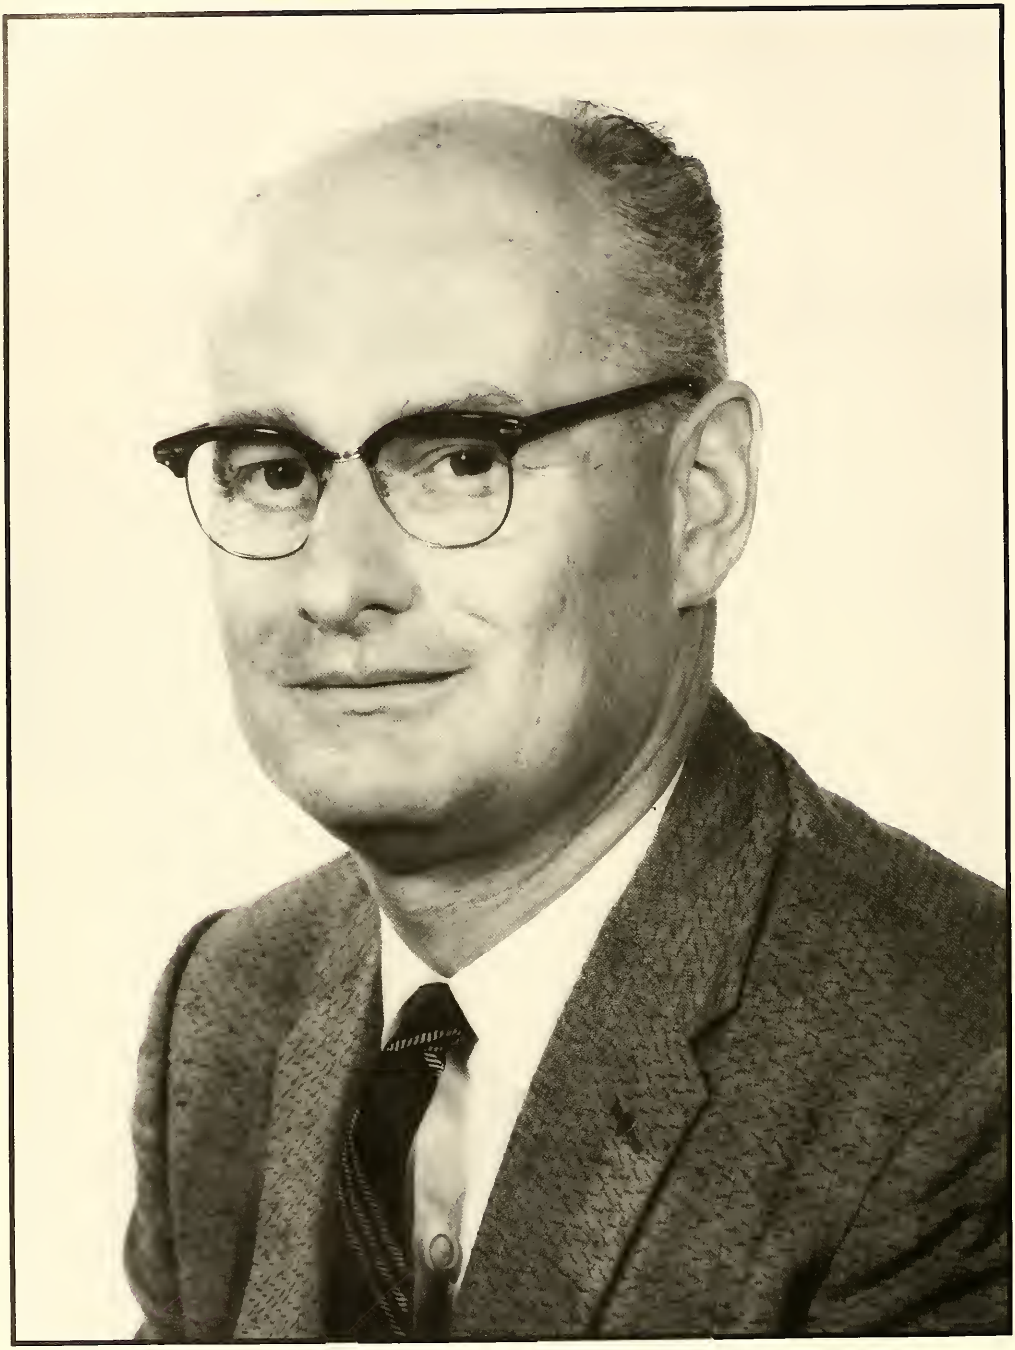
The Athletic Director



Jack Grinold presents Herb with the Sheaffer Pen Award

Inducted into the Northeastern Hall of Fame by former President Asa Knowles

Ernest L. Spencer



1913-1975

The presence of Ernest L. Spencer, Professor of Civil Engineering and Chairman of the Department at Northeastern, will be sorely missed and long remembered by his friends and associates. The former president of the Boston Society of Civil Engineers died in October 1975.

He was friend to literally hundreds of students, faculty, alumni and staff, and although he gave civil engineering matters top priority, he was a kind of good will emissary to all parts of the university.

A graduate of Norwood High School, he received a Bachelor of Science degree in Civil Engineering from Northeastern in 1936, and spent the next three years working for various engineering firms. He joined the Northeastern faculty in 1939, and received an MSCE from Harvard in 1943, and assumed the position of department chairman at Northeastern in 1961.

He oversaw the growth of the Civil Engineering Department from six full-time faculty members to 22, and was instrumental in developing and strengthening programs at associate, baccalaureate and graduate degree levels. His own expertise was in concrete technology in which he was a consultant throughout his career.

He was Chairman of the American Society for Testing and Materials, New England District, for four years, and was also a member of the Prestressed Concrete Institute. He was a member of the American Society for Engineering Education, Tau Beta Pi and Sigma Xi.

Spencer was a member of the Medfield Planning Board for 12 years, and chaired the Northeastern Diamond Anniversary Celebration Committee. From 1961 to 1974, he was a member of the University Cabinet.

Students and faculty could depend on his office door being open at all times; his valued counsel was always available. His warmth, good humor, and dedication markedly influenced those who came within his large sphere of activity. He brought various civil engineering oriented clubs on campus including Chi Epsilon, the national civil engineering honor society, and helped the student chapter of the ASCE.

Lighthearted in his approach to academic matters, he seldom underestimated the importance of problems to students and staff, and was always ready to lend a hand. He took great pride in his mechanical ability, and was not above plunging into laboratory and maintenance problems to keep things in working order in the Botolph Building.

In 1975, he helped initiate formation of a Visiting Committee of professional engineers to review programs and facilities in his department, in the interest of continuing improvement and upgrading of the learning experience made available to civil engineering students. He did not live to see the final report of that committee; it was dedicated in his memory.

In recognition of what he has done for Northeastern and in his memory, the 1977 Cauldron would like to pay tribute to Professor Ernest L. Spencer.

Professional Police

Yes, cops are getting an education.

"Until ten years ago, no one thought seriously of educating police or correction people," says Norman Rosenblatt, dean of the College of Criminal Justice.

Things are changing. Undergraduate enrollment in the college now numbers about 1800 students, with some 200 in the graduate program. Female enrollment is climbing also.

"Now the whole thing with the women's movement is bringing more women into it (the college)," says Robert Croatti, assistant to the dean of criminal justice. "Yes, women can do it!"

The college was established in 1966 under a grant from the Ford Foundation.

"It's constantly growing and expanding," says Rosenblatt, "I thought it would level off, but . . ."

Areas of specialization for criminal justice majors include corrections, rehabilitation, law enforcement and court work.

And criminal justice co-op students can land jobs as police dispatchers, law firm messengers and investigative trainees in federal agencies, according to Kathi Kalloel, assistant co-op coordinator.

Some students were reportedly unhappy with co-op jobs as department store security guards.

"With CJ being a relatively new degree, employers aren't sure where to put a CJ major," Kalliel concedes, "(And) the job market is tight, no question. We're having problems getting tremendously satisfying jobs for all students."

Rosenblatt lauds co-op as a healthy does of realism for the student attracted to the "glamour" of police work. Merely the stench of a dank prison cell is often enough to dissuade a student from the field, he says.

A "best in the country" tag for the college of criminal justice has often been bandied about.

Rosenblatt demurs gently, but stresses the college's well-known faculty and international reputation.

Engineers Broadening Their Horizons

"Contrary to a general public conception, a serious shortage of engineers is developing in this country."

The New York Times
March 11, 1973

The picture hasn't changed. The engineering graduate can look forward to a fairly open job market — a market that has been increasing by approximately 40,000 openings every year, according to a U.S. Labor department study.

Because of this growing trend and the move toward a more technological society, this year's engineering major has had more freedom in choosing courses and degrees than did their predecessors five years before. This is especially true for the Northeastern student.

The introduction of an unspecified degree, an environmental engineering option in civil engineering, the reduction of the number of quarter hours and changes in co-op policy occurred during the last five years.

Dr. Melvin Mark, dean of the College of Engineering, said the introduction of the unspecified degree allows a student to earn a degree without stating a specific branch of engineering. This gives the student more flexibility in choosing his or her course of study.

The unspecified BS program allows a student to design his own program with the aid of an advisor, with about 50 percent elective, including courses outside of the College of Engineering.

Due to today's stress on conserving our country's natural resources, the civil engineering department added an environmental engineering option which places a strong environmental component in the curriculum. Courses included in the new major were water supply treatment, waste water disposal, and air pollution. These courses were added to supplement the department's other concentrations in transportation, structural engineering, solid mechanics and foundation engineering.

The number of quarter hours needed to be spent in class to obtain a degree was reduced 10 percent so that today's graduate needed only 180 quarter hours.

At the same time, the quality point average (QPA) needed for graduation was raised from a 1.8 in 1970 to a 2.0 with required courses in 1975.

Lincoln College, strictly an evening college in the past, was placed under the Dean of Engineering and day classes instituted recently. Two new programs were offered in engineering technology. These programs involve more laboratory work and application techniques involving practical work rather than the theoretical, arithmetical and scientific background.

Co-op has also given students a look at the more practical, everyday use of engineering. Many practices within the structure of the engineering co-op have changed recently to allow more freedom of choice in the selection of assignments.

In the early 1970's, the co-op department would send one candidate to interview for one job. Now if there are three jobs and three candidates, all of the candidates interview for each of the positions, thereby giving both companies and students more of a choice.

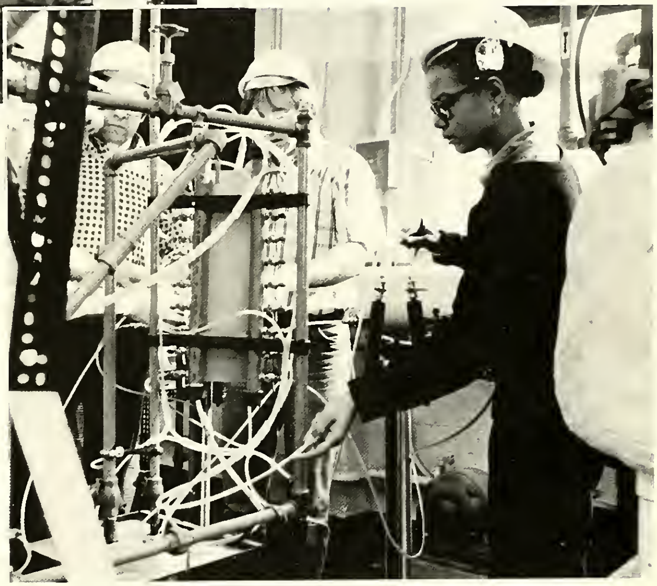
The co-op department also offered a career development course which prepared students for graduation, while the senior placement service has expanded their offerings to include a series of seminars on graduate schools, interviews, resume writing, and job search techniques.

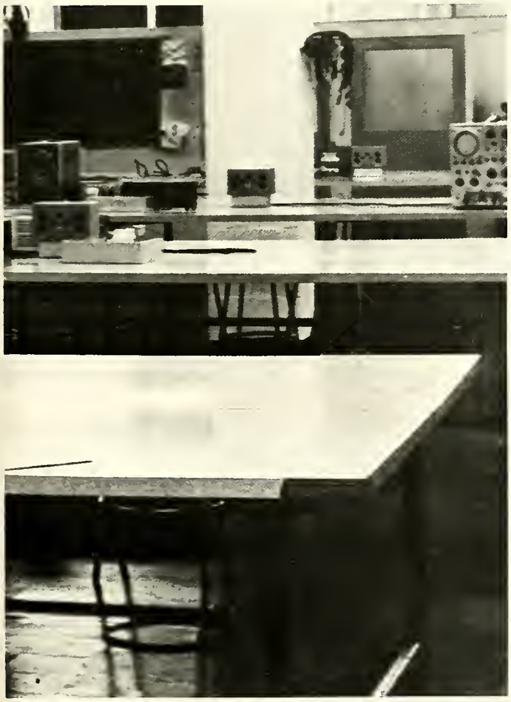
Northeastern is also encouraging engineering students to take the sequence of steps needed to become a registered professional engineer.

Mark believes that Northeastern provides an excellent foundation for entering the engineering profession or for using technical knowledge in other careers.

"In a complex society, your engineering education may well become the true liberal education of the future."

— Jay Collins





Primary Health Care Training

The mid-seventies were a period of growth and expansion in public health care as medicare and medicaid extended services to a greater segment of society.

Northeastern's College of Pharmacy and Allied Health Professions helped fill the need for qualified professional help.

Between 1972 and 1975 enrollments increased 47 percent. Women comprised more than half of the college, 749 of the 1373 enrolled.

Pharmacy had been an almost totally male-oriented field. However, women became a steadily increasing percentage in the profession.

Albert Soloway, dean of the College of Pharmacy and Allied Health Professions, said, "We find that the increasing number of women in our classes adds a healthy new perspective to student outlook; in profile, they are a bright group with a high performance record."

As a result of the increased demand for health professionals, students in this field had generally excellent co-op job opportunities.

Co-operative education was ideally suited to the health-related professions. The application of classroom theory to reality through on-the-job training was part of the requirements for a degree of certification.

Pharmacists received one of the highest starting salaries of all college graduates. Salaries ranged from $12,000 to $20,000.

The college was adopting new programs and modifying existing ones as the need arose.

Usually pleased by the changes and developments in the health professions, students sometimes expressed dismay at the frequent changes in the degree requirements.

The College of Pharmacy was expanding to meet the broader responsibilities of a pharmacist which went beyond the traditional role of merely distributing drugs.

"Pharmacy is undergoing major changes to meet demands in the future," said Soloway. "Pharmacy in the future will be drastically changed. Pharmacists will really be primary health care units."

The merging in 1971 of the two formerly separate colleges, pharmacy and allied health helped bridge the communications gap between the professions.

Allied health offered programs in medical laboratory science, respiratory therapy, medical records administration, dental hygiene, physical assistance, radiologic technology management, nursing home administration and hematology.

— Theresa Strahan

Liberal Arts

Credit for Co-op

What do you do with a Liberal Arts degree?

With today's tight job market, that query has become almost a cliche. Recent liberal arts graduates report employers are looking for people with special skills.

Former Dean of the College of Liberal Arts, Robert Shepard, said that this is true, but says that a liberal arts degree is still valid.

"The problem is," he says, "that students are conditioned by the notion that you major in something for career preparation. But, that's never been the central concept (in liberal arts)."

"You major in something because you're in love with it. It may or may not coincide with career aspirations."

Shepard admits employers are asking more and more 'what skills do you have?' but decries this as a "weakness."

"Intellectual development is needed more than specific skills," he maintains. "A broad liberal arts background gives that kind of intellectual development."

And co-op is there as a skill-builder for liberal arts students.

The College of Liberal Arts in 1975 began an experimental credit for co-op program with eligible biology, chemistry, mathematics, physics, earth science and psychology students.

The pilot program, approved in 1974 by a liberal arts faculty committee, will be expanded to include other majors if this venture proves successful.

Credit for Co-op is not free.

Students pay the same rates for one co-op term as they pay for one four-credit course. And, students aren't rushing to participate in the program.

In other recent developments, liberal arts has started a human services major. A combination of social science courses, it also features field experience in welfare, rehabilitation and corrections.

And a music education major may be coming soon.

Many new courses have been added to the liberal arts menu. Along with the traditional staples, students can now enjoy Insanity and Literature, Black Nutritional Habits, and the Meaning of Death.

— Mary Beth Lane

Required Listening

Health, Recreation and Kinesiology?

In liberal arts, they concentrate on the mind — the meaning of life, the social sciences. In business they deal with the numbers, the costs, the profits.

But in Boston Bouve, they work for the body.

Physical Education, recreation education, physical therapy and health education are all a part of Boston Bouve College.

The Boston School of Physical Education was founded in 1913 to train women in physical education. Those women, unlike today's student, paid $100 year tuition and a percentage of their first year's salary after graduation.

In 1964, the school became a part of Northeastern and was rechristened Boston Bouve.

From there it was golden. The only majors available when the school merged with Northeastern were physical education and physical therapy. In 1965, they added recreation education and the final major, health education, came along in 1972.

Perhaps one of the most demanding majors in the entire university is physical therapy. Students are prepared, through classwork and hospital experience, to work with the physically disabled of all ages in hospitals, clinics and nursing homes.

It's tough, demanding and — if you make it — rewarding.

Students concentrate on the more liberal arts as well as sciences during the first two years, and then move on to the more professional courses — anatomy, kinesiology, neurology, physiology and clinical medicine.

Field experience comes in the form of cooperative placement in various hospitals, clinics and other health institutions. Working with the disabled, young and old, can be a frustrating, depressing, and, fortunately, often happy experience. The job and classwork demand intense concentration, perseverance and drive.

Health education majors are concerned with teaching at all levels — with emphasis on drug abuse and use, mental health, aging and health problems.

Students in this five-year program work in hospitals and community centers, learning about family and community health problems.

Recreation education majors specialize in community recreation, therapeutic recreation or outdoor education and conservation.

The program is wide-ranging and includes study in arts and crafts, music, therapeutic recreation sports, outdoor education, school camping and park programming.

Students work indoors and out with children and adults in youth agencies, recreation departments, hospitals and other institutions.

In addition, students spend time at the university's Warren Center in Ashland, "an outdoor lab for Boston Bouve College."

The department conducts during the summer a six-week camp for the severely handicapped, in conjunction with the Easter Seals program.

The physical education majors are trained to teach at elementary and secondary levels, may minor in athletic training, coaching, dancing or the sciences.

They also spend time at Ashland, and in their senior year are assigned to various student teaching positions in the Boston area.

Boston Bouve has changed with the times.

An associate degree was established in therapeutic recreation for nursing home directors, and was run out of University and Lincoln Colleges.

A part-time master's program in physical eduation and recreation education was established in 1970.

The growth has been tremendous — 10 graduates in 1915, and 1500 last year.

Health and recreation education have become increasingly attractive to incoming freshmen, and physical therapy and physical education continue to grow.

— Mary Concannon

Push Over Piaget

Northeastern's education program attempted to prepare future teachers to adjust to the changing roles in the classroom.

Frank E. Marsh Jr., dean of the College of Education, said that one way his goal was accomplished was through co-op. He said that various types of work the students managed to get helped them prepare for their futures in the field of education.

"Teaching is both an art and a science," said Dean Marsh, "and we have long had too narrow a concept of education."

"We must now think of education as a lifetime adventure not limited to the school," he said.

The College of Education was established in 1953 to prepare high quality professionals for the service of education.

The college offers students a variety of majors.

Elementary education students are able to concentrate on humanities; social sciences; math-sciences; reading-language, or special education. A minimum of 16 quarter hours in two other subject areas is also required.

Secondary education majors are offered social studies, English, foreign languages; earth science; biology; chemistry; physics or math programs.

One quarter of supervised student teaching was also required during each student's senior year.

The college also offered a pre-professional program in speech and hearing therapy.

There was also a pre-professional program in human services offered in conjunction with the colleges of Criminal Justice and Liberal Arts.

The program was designed to give students a comprehensive view of the needs of society and the many ways an individual may meet these needs.

It prepared the student for work in halfway houses, mental hospitals, penal institutions and rehabilitation centers.

The college began an experimental four year co-op program with about 30 volunteers from the class of 1978.

While on co-op, the students took a course in human development that met several times a week. The emphasis of the program, according to Dean Marsh, was to "tie together theory and practice at the same time."

There were also changes at the reading clinic.

The clinic became more of a real reading clinic and referral center, making its services available on Saturdays and evenings.

Dean Marsh said he would like to see the concept expanded into other fields such as math.

Meanwhile, enrollment was on the decline.

Dean Marsh said it was more difficult to obtain jobs in the field of education and colleges were more selective of the students they accepted into programs, just as superintendents and principals became more demanding in the quality of the teachers they hired.

More men entered the field of education as the opportunities, especially in the field of elementary education, are on the rise.

Dean Marsh added that the programs turned out more well-rounded teachers prepared to work in a variety of fields.

$$$ Grads See Cents of Business Degree

Two hundred years ago, Abe Swartz was opening up his delicatessen in downtown Boston. Such-a-business you have never seen.

It was the very first fast food enterprise in the colonies. You could have ridden up on horseback, jumped off your mount, eaten a corned beef on rye and been back on your way, before you can buy books at the bookstore the first week of classes.

Unfortunately, his two daughters ate up all the inventory and the delicatessen went bankrupt within the week.

Perhaps if Abe had studied at the Northeastern College of Business Administration he would have been more successful.

The school created an environment for an individual to learn to think critically. The educational process stressed theoretical and functional backgrounds, and placed a strong emphasis on the professional areas.

Students were given exposure to the practical experiences in business through co-op assignments. In a final effort to round out a student's background, there was a strong infusion of the humanities and social studies.

The business program's aim was to allow students to pursue professional graduate study, or to be viable well-trained individuals in high demand in the market place.

Many students chose Northeastern because it appeared to be the most logical way to approach education. "Instead of hitting the books for nine months and pumping gas over the summer," said one accounting major, "I received an education that combined classroom knowledge and the practical, that enabled me to better understand the profession I was entering."

Professor Mike Fetters of the accounting department said the environment was a critical aspect in the school's educational system. "At Northeastern the business student has a unique opportunity to blend practical and academic ekperience while working toward his undergraduate degree," he said.

The student learned from his and other students' experiences on co-op said Fetters. The combination contributed to the total "educational package that is a tremendous aid in a student's endeavors to achieve personal goals," he added.

Looking back at the five year investment of time, and the enormous amount of money spent, did the education received meet your expectations? Before answering, re-evaluate the alternatives.

THEASTERN
SITY

New Angels of Mercy

The days of Florence Nightengale are long gone.

Today's nurses need more than a strong stomach and a good dose of mercy. Training and experience — especially the latter — are prerequisites in a field that demands much from the nurse.

"At other schools, the students might work for years and never work on a real person," said Mary Flynn, the college's co-op coordinator. "Here they get experience."

The College of Nursing was established in 1964, with a three-year associate degree program designed to prepare the beginning nurse to provide the care in a variety of patient situations, said Dean Juanita Long.

Two years later, in 1966, a five-year baccalaureate program, complete with co-op was begun. This program was founded to provide nurses with basic training plus the tools for future advancement through experience and graduate study for such things as clinical nursing, administration, research or teaching.

Baccalaureate candidates begin receiving clinical experience in their second year, while associates begin immediately.

In 1970, the college opened a limited license practical nurse program in the associate term, for nurses whose previous training and experience enable them to complete the program in two years.

The first class of qualified registered nurses was admitted in 1974, and these students, said Long, complete their degree requirements in one year.

The nurse practitioner program — nurses presently employed in ambulatory pediatric health care centers — was also begun. This course, lasting 16 weeks, accommodated a limited number of students.

An open curriculum program was begun this year, where students in both degree majors follow the same course of studies for the freshman year and then opt for either program.

All programs have shown increasing enrollments, said Long, and some students must be turned away from the various programs.

Nursing has changed in another way besides the increasing demand for training and experience.

The nurse at your hospital bedside may not look like the Clara Barton's of yesterday — as few of those women wore pants and a full-length beard.

Men have entered the profession in increasing numbers, and last year, the baccalaureate program boasted 33 male nurses.

"I think the men like nursing partly because the field is so wide open," said Barbara Madden, R.N., M.S., an instructor in the department.

"You sometimes find a kind of reverse prejudice. Since they (the men) are in such demand, they can often rise quickly to the top, especially in administration."

Dave Wilson, 80N a former sociology major, left Colby College and . . .

"I worked in a nursing home for three months and I got along well with the old folks," he said. "Then I was an orderly at St. Francis Hospital in Hartford. I really liked it, so I decided to become a nurse."

In 1975, the baccalaureate program was accepted by Sigma Theta Tau, Inc., the national honor society of nursing.

Nurses are expanding their roles, according to Prof. Barbara Goodfellow.

"We are now able to provide better nursing service by meeting the needs of those who have not been reached before. The nurse clinician and nurse practitioner provide entrance into the health care system for people in areas such as the inner city and rural America with an adequate number of physicians," she explained.

Do You Remember?

STREAKING

It was a cold night in March, 1974, when a few brave NU men and woman, bared themselves to a new college fad, streaking. It was a very short lived fad. Besides, it was cold and the dorms couldn't afford too much more toilet paper being wasted.

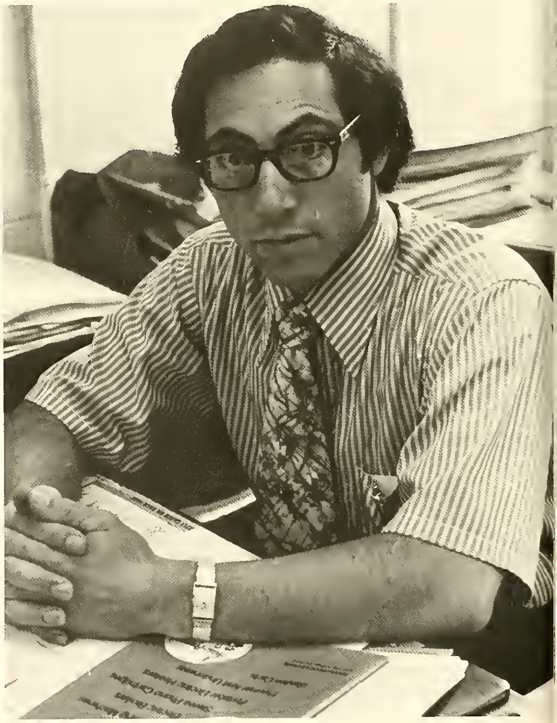
Who's Who?

Do you know who is who or what on campus? Well, before you leave here is who is who and who was who.

Everyone has talked about him, many want to talk to him, others get angry with him, why? Because, he is the "bursar." Yes, he is that man who sends you the bills in the mail and says who pays what and how much. Bob Najjar is his name.

A very proficient businessman, Najjar is said to have helped set up the accounting system at Northeastern. He has also become very good at having people get angry with him without having to say a word or even meet him. But, such is the life of a popular man.



Martin Bernstein, Chairperson of Social Council, is responsible for programming all of the social events on campus. The leader of one of the largest budgeted student organizations, Martin is responsible for bringing such flicks as 'Deep Throat' and 'The Devil in Miss Jones' on campus. From Yonkers, N.Y., this 21-year-old joined Social Council as film chairman in the winter of 1975 and has made Social Council what it is today.

Since Martin has taken over as Chairman in 1975, he has brought on campus an annual Springfest, alcohol, burlesque, concerts, etc. He has also programmed entertainment in the Rathskellar three to four times a week. A management major, Martin enjoys what he does and apparently does it well.

So, when you attend the next big social event on campus, you can thank Martin and all the time and effort he has put into making sure you have a good time.

In addition to being a Dean's List student, he is a Travelli Scholar and was named to Who's Who in American Colleges this past year.

MOUNT
HOLYOKE
COLLEGE

Have you ever been to a Silver Masque production and wonder where the set came from? Or, have you ever been to a movie or class in the Auditorium and wonder how the screen got down? Well, Peter Glynn is the man responsible for all of this. He is the backstage manager in the auditorium and spends his day building "dollhouses." Sound like fun? Well it is to Peter who just came from New Hampshire to join the staff in August, 1976, but ask him after he has been here for 16 hours and listen to the reply. Peter, besides being backstage manager, is also the proud owner of "Marta" a Siberian Husky you may have noticed trucking across campus.

A true politician, Glenn Trindade, 21, a political science major, has been the Executive Chairperson of the Student Federation for two years. Glenn has been responsible for many good programs on campus. He has run the student teacher evaluations, has had many committees look into some hair-raising problems at the university, set up open meetings with Pres. Ryder and much more. This New Bedford native has not been solely Federation property though, besides working two part-time jobs, he is a justice on the Student Court, has been a member of Social Council, and will be Chairman of NUFOS (NU Freshman Orientation Staff) this year. A Dean's List student and Travelli Scholar, Glenn was named to Who's Who in American Colleges. So, what does he want to do with a track record like his? Go to Law School. Where? Harvard, of course. Good Luck Glenn!

Lucia Warner, 22, of West Hartford, Conn., came to Northeastern in the Fall of 1973, as any other young coed. But little did she know that she would spend 18 hours of her day at Northeastern helping with Student Activities. She is a member of Alpha Sigma Tau Sorority and President of the Panhellenic Council. She was responsible for making students more aware of Greeks on campus. Lucia has also helped a great deal with the yearbook, and many long hours have been spent here working at other events. After graduation, she intends to rest.

Jeffrey Cooper, a junior accounting major, is one of the most active students on campus. Jeff became a brother of the Gamma Phi Kappa Fraternity, and has risen to its presidency. He has also been a Treasurer for the Interfraternity Council, and a Vice-President for the IFC. In addition to his social activities, he takes life on campus more seriously than others. He was chief justice of the Student Court, and has donated much of his time helping raise money from alumni. A Travelli Scholar, Jeff is a Dean's List student and was named to Who's Who in American Colleges this past year.

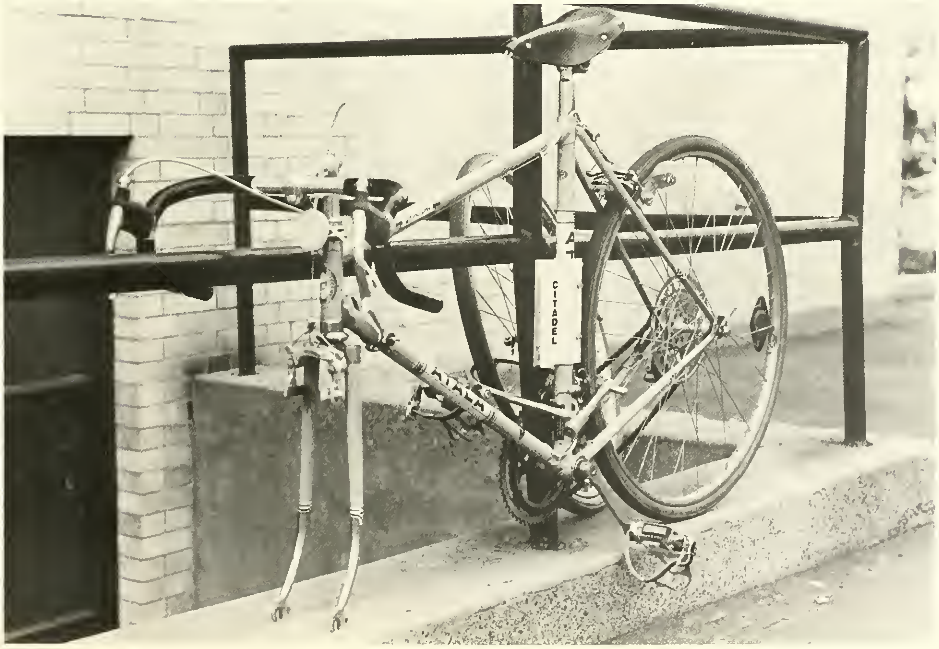
SMOKING
IN THIS AREA

Running a radio station sounds like a fun job, but to Richard Morin, manager of WRBB, it has been a very serious job. Rick, a management major has been able to put much of his classroom knowledge to practical use. Rick manages approximately 50 people. He is responsible for making sure everything is done: schedules, news, paying bills, fixing equipment, etc. WRBB keeps Rick busy for the better and sometimes worse part of the day. They will miss him when he leaves. Rick is a Dean's List student and was named to Who's Who in American Colleges this past year.

Your editor-in-chief, Mary Ann Bell, has been a very busy little girl this past year. In addition to putting together this masterpiece, she headed up Social Council for one year opposite Martin Bernstein, chaired the Freshman Orientation Committee and is President of the Alpha Sigma Tau Sorority. A 22-year-old accounting major from Waltham, she is really into student activities. What will she do after graduation? Who knows, rest, work and then maybe go to law school, but definitely not spend 20 hours a day, seven days a week at Northeastern. A Travelli Scholar, she was named to Who's Who in American Colleges and Universities this past year.

Renee Rappaport from Freeport, N.Y., is probably the only Northeastern graduate who can boast about having stood next to President Jimmy Carter on his Inauguration Day. Renee, a political science major, took a co-op quarter off and ran for a seat as state delegate. Sorry to say that she lost, but she got an invitation to the inauguration anyways, and got to meet President Carter. Renee is 22, and an active member of the Student Federation. She co-chaired the Freshman Orientation Staff in 1975, and has worked hard for student activities. Renee is a Dean's List student and was named to Who's Who in American Colleges.

D. Joseph Griffin, a 1969 graduate of NU, decided to come back and reform the place. Mr. Griffin, 34, is the Director of Public Safety at Northeastern. When he came to NU, he made very notable changes. There are now two types of officers, University Police (blue uniforms) and Institutional Police (brown uniforms). All of the University police now attend a training session at the state police academy thanks to Mr. Griffin. He has stepped up the security on campus, installed more alarm switches and hired the first female police. Mr. Griffin has done a remarkable job and has made Northeastern a safer place to go to school.



CITADEL

Student Union Speakeasy: Fun for

Oh no, I'll be arrested if my top falls!

Now, let's get that kick right.

One and All

Beautiful dancing girls with lovely voices.

All this for a lousy beer!

Mike and Ike clowning around. Boy, the help you get these days.

C'mon let's get some spirit here.

Oh, no! Not another Social Council concert.

Three blind mice.

Who, me? I never cheat, I'm a Dean's List student.

Yes, may I help you?

Is that all you do around here is wait in lines?

Look, buzz off!

The meeting wasn't that funny.

G. ERNEST ARLETT:

The Regal Father of Husky Crew Retires. From Henley, England to Huntington Ave., His Name Is Synonymous With the Sport Itself.

Ernie Arlett

When the university community first heard of Coach Ernie Arlett's retirement as crew coach after the 1977 spring season it was unofficial. Although Arlett himself knew that the 1977 season, his 13th, would be his last he hadn't confirmed it totally.

G. Ernest Arlett, known as a tradition in rowing circles, first came to Northeastern in 1964 with a tough assignment he knew would take a few years to complete. However, he also knew that he could do it. The mission: start a crew program at Northeastern University, make it competitive, and make it last. The man's success speaks for itself.

In the summer of 1976, while Ernie was preparing the United States scullers for Olympic competition in Montreal he took sick, so his hope that 1977 would be his final season of coaching was in jeopardy. But true to his rugged English upbringing he was ready for his final season with bells on.

Born at Henley-on-the-Thames, England, Arlett was bred on rowing as his father, Jack Arlett, was second in the World's Professional Single Sculls Championship from 1912 to 1920. Harry Arlett, his brother, was also a professional sculler. So, little Ernie had crew ingrained in his character from day one.

Arlett sends NU off at 1974 Head of the Charles.

In the mid-1920's, after graduating from Henley-British-School and Henley Technical Institute, Arlett competed professionally in English regattas as a member of eights, fours, pairs and as a single scull, his specialty.

He began coaching as a freelancer in 1930 until the war interrupted. After the war he secured a coaching job at the National Provincial Bank and Rowing Club from 1948-57. His two early coaching successes came in 1948 when he served as the Finland Olympic Regatta coach and at the 1949 Henley Regatta, when he guided John B. Kelly to the Diamond Sculls title.

Oriel and Queens Colleges in Oxford, England, were the next stops in Arlett's now well-known and respected coaching career. In 1959 he made the move across the Atlantic Ocean where his career blossomed.

Rutgers University was the first institution to reap the fruits of Arlett's service when he became freshman coach in 1960. Two years later Harvard University acquired his talents as supervisor of its sculling and intramural crew programs.

How lucky Northeastern University was to get this man. He needed a challenge in 1964 and what bigger one could he get than to be the father of a major university's initial venture in the rewarding sport of crew.

Arlett's monumental presence was felt immediately, as he royal techniques helped the initial varsity crew score a 3-1 regular season record and a Dad Vail Championship. The Northeastern "Cinderella" crew was the undisputed Small College Champion of the nation.

On the Charles with assistant Frank Barrett.

Celebrating with crew at 1972 Eastern Sprints.

Instantly the country's perennial powers took notice of Arlett and his athletes' accomplishments after they took a trip to Henley Royal Regatta at Henley-on-the-Thames, England. Arlett's return to his birthplace was quite auspicious. Eastern Sprint Championships in 1972 and '73 again sent the Husky elite eight shell to Henley and showdowns with the Russians in the World Challenge Cup. NU finished second both times.

Arlett, along with other crew enthusiasts and coaches from the New England and East Coast area, is one of the founders of the Head of the Charles Regatta, run each fall on the Charles River. It is fashioned after the Henley races in England and it began in 1965. This annual affair, which is attended by thousands of racers and spectators each year is an accomplishment much to the credit of Ernie Arlett.

However, the championships, his career regular season regatta record of 36 wins and 20 losses, including a 5-0 slate in 1973, all the recognition is immeasureable. The spring of 1977 would be frosting on the cake.

Ernie Arlett has many memories to relish. Most of the crewmen who rowed for him were unaware of the sport when, as freshmen meandering around campus, a "regal sort of chap" and his assistant Frank Barrett approached them with a thing called crew. Like sculptures, they were molded by Arlett's massive hands into oarsmen. From the tank under the Barletta Natatorium, to the Riverside Boathouse across from Robert Halls, to the historic Charles, to Henley-on-the-Thames . . .

The story of Arlett's being accepted as head crew coach in 1964 by former Athletic Director Herb Gallagher is one of note. When Gallagher called then Harvard Athletic Director Tom Bolles, a former crew coach, to inquire about Arlett, Bolles exclaimed, "No, Herb, you're not taking Ernie from us, are you?" Prof. Gallagher politely said thank you for the response and the rest is history.

Another Fall, Another Winner

DENTON, Texas — It was here, on the 13th anniversary of President John F. Kennedy's assassination, that two runners made track history at Northeastern by becoming the school's first All-American runners. The events on November 22, 1976 at the National Collegiate Association of Athletic Cross Country Championships (NCAA's) capped a season which saw an 8-2 dual record, a first in the Greater Boston Championships, a third in the New England Championships and a sixth in the Eastern Championships (IC4A's).

A season before the Huskies had surprisingly won the IC4A's after placing second in the NE's. It was going to be a chore to defend the title and, as the season progressed, it became more of an impossibility since no runners prevailed capable enough to run fourth and fifth.

Capt. John Flora, 21st at the NCAA's, and sophomore Bruce Bick-

CROSS COUNTRY TEAM

1st row: *Tom Mortimer, Bob Flora, Greg Senick, Kurt Stolle, John Flora, Kevin Prest, Kevin Maguire, Jim Doane.* 2nd row: *Coach Everett Baker, Bruce Bickford, Ken Graham, Rich Fazio, Wayne Spinney, Jim Gallagher, Mark Lech, Walt Nevolis and Head Coach Irwin Cohen.*

ford, 14th at the NCAA's, achievements that earned them the All-America tabs, paced the Harriers throughout the season. Bob Flora, John's twin brother, was the third consistent placer over the fall season and his 123rd NCAA finish was credible.

However, graduation of Ken Flanders and Mike Buckley posed problems. Inexperienced depth and the lack of proven fourth and fifth finishers resulted in a team that was young and incomplete. Still, the season was successful, as they always are.

It began with a lopsided win over a weak New Hampshire squad in late September. John Flora won the race covering the Huskies' five-mile home course at Franklin Park in 24:52. Only two Wildcat runners upset the NU dominance of the first 10 places. Essentially, it was no contest, but the next race was.

It appeared after the UNH meet that John Flora and Bruce Bickford would continue their fine running, but against such a weak opponent NU didn't know which runners would round out the top five. Freshman Jim Doane and sophomore Greg Senick, another product of the Floras' hometown, Ledyard, Conn., might be the answer, but their inexperience was too much to compensate for.

Massachusetts, always a power in New England along with Northeastern and Providence, brought the Huskies back to earth with a win in meet number two.

J. Flora — Bickford — B. Flora, the Huskies big trio, finished the Van Cortland Park course second, third and fifth, respectively. UMass junior Mike Quinn from Dedham won the race with teammate John McGrail fourth. The Minutemen also had sixth, seventh and eighth.

Scheduling two powers such as UMass and Providence back-to-back produced the team's two losses of the season. John Flora resumed his seasonal battle with the Friar's John Treacy taking second in 23:27 time. Bickford, the 1977 NU captain, was third (23:58), while the other half of the Irish-import duo, Mick O'Shea, took fourth (24:15). Bob Flora was sixth on the Franklin Park trail in 24:22, while Senick took tenth and Gerry Whittaker, 13th.

The Huskies breezed into the GBC's with a white-washing of the Holy Cross Crusaders minus the Floras. Bickford grabbed the number one spot pacing the 15-49 win as the visiting Huskies bolted to the first six spots in the race at Worcester. Walter Nevolis, Doane, Senick, freshman Kevin Prest and ex-manager Jim Gallagher were the top six. Next stop — THE GREATER BOSTON CHAMPIONSHIPS.

At Franklin Park on Oct. 19, Northeastern turned the event into a showcase with its top five runners coming up with personal best times. John Flora's 23:28 was one of the fastest times ever and it headed a one-two-three NU first-place finish. Bickford was second in 23:41 while Bob Flora was third in 23:49.

The team compiled a low 26 points. Harvard (54), Brandeis (65), MIT (102) and Tufts (132) were the next four placers. Freshman Walt Nevolis was the Huskies fourth man with a ninth-place 24:31 time, while Doane completed the scoring in 11 place, 24:37.

Now the team had three races left before the NE's — Harvard, Boston College and Dartmouth, which was trying for its first undefeated season in many-a-year.

With Harvard, the first three places went to Bob-Bruce-John of Flora-Bickford-Flora fame. Two days later against Boston College on Oct. 25, the second half of the team was led by Doane, Senick, Prest, Gallagher and old-timer Ken Graham, who would turn in a fine indoor season.

Dartmouth proved to be a warm-up for the New England's run a week later. A slim 27-28 win over a tough and hilly Hanover, New Hampshire course showed the Huskies as beatable in the championship races that were coming. The experience lost in the 1976 graduation just couldn't be countered with youth.

As a result, the NE's had Northeastern third behind Providence and UMass after an all out effort to win rather than take second. Lowell's Bob Hodge burned out after setting a torrid first-mile pace (4:21) and PC's John Treacy won it with a record-setting 23:06 time. John Flora in an NU record 23:15 was third, Bickford was sixth (23:43) and Bob Flora was 10th (23:48). Other finishers for the team were: Doane (28th), Senick (42nd), Kevin Maguire (69th) and Nevolis (96th). The team scoring went Providence (44 points), UMass (88) and Northeastern (89).

John Flori continued to run fantastic for the Huskies at the IC4A's, although he finished second to Army's Curt Alitz; Bickford finished fourth; and Bob Flora eighth Harvard took the championship. It was a surprise when Northeastern won the race in 1975, this time it was the Crimson's show. Jim Doane completed the Van Cortland Park course number 68, while Greg Senick was 89th, Kevin Prest 136th and Jim Gallagher 142nd.

The perennial pack picture.

John, Bruce and, of course, Bob.

Frustration Equals 2-7 Season

ORONO, Maine — Head Coach Robert "Bo" Lyons said it best when he uttered, "I hope never to live through another season like this."

Obviously he wasn't alone with his sentiments of abolishing all memories of the 1976 football season from his mind. Joining Lyons were all the faithful Husky gridiron watchers that witnessed the 2-7 campaign.

It was a cold and blustery day at Orono when the Huskies ended the season with a 21-20 loss at the hands of the Black Bears on Saturday, Nov. 6. The season was destined to end "frustratingly" for the Husky and a football stadium more than 275 miles from Boston was as good a place as any to receive the final nail for the coffin.

However, the season had a few bright moments. Even the ominous shadows that prevailed over the UMaine campus as the sun disap-

The first of seven to "get away."

peared in the bitter cold western sky couldn't dim the hope of the 1977 season.

The 1976 season had four top seniors paving the pre-season optimism. Co-Captains Kevin Foley, who ended up as the team's leading scorer, Rich Morrill, Mike Budrow, an end who would have a stellar season and Stan Hillier, a premier defensive tackle, all were ready for one more go. Their "last hurrah."

It just wasn't to be. The Huskies learned from the first three games that their season was "marked." By the time the Oct. 23 meeting with the New Hampshire Wildcats was completed, the team was 1-6. Two weeks later the agony was over.

Three months before the one-point loss on the frigid turf in Maine the team was beginning pre-season practice at its home field in Brookline, Parsons Field. The home opener was against C.W. Post.

What happened Saturday afternoon, Sept. 11 disrupted a pattern begun in 1964, when the series between the schools was initiated. Every previous year the home team won the game, Post's 18-14 win changed all that. The Division III powerhouse named after the cereal family had milked the Huskies of a sure win with a pair of safeties and the same number of TD tosses in the final stanza.

Northeastern gained the lead in the contest on a first-quarter scoot by halfback Mark Nemes and a fourth-quarter plunge by fullback Russ McDonald. Placekicker Barry Hutch hit both point-afters.

The game brought to light an able leader in junior quarterback Clark Crowley. He ended the season with the record for most attempts (226) and completions (101) in one fall. He led Division II New England quarterbacks in yards (1526) as he threw 17 interceptions and 10 touchdown passes. He will go down as one of Northeastern's best.

Two more of Northeastern's best football players, offensively that is, halfback Kevin Foley and end Mike Budrow, also gave the dismal season something to remember. The two combined for 65 receptions and 992 yards. Foley tied Jim Fennessey's career TD reception mark of 12 with four during the season, while Budrow, with 39 grabs broke Art Bent's 1973 mark of 35 for a season.

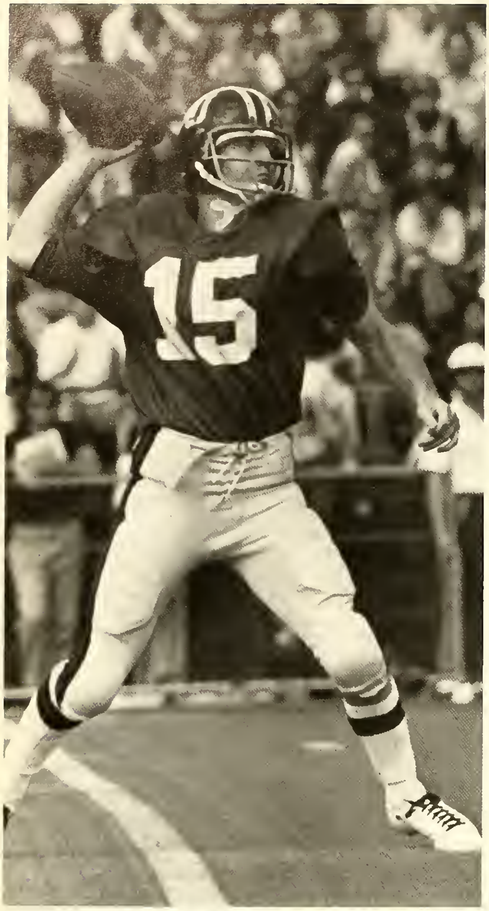
These records, however, became evident only after the season. Budrow could have done more damage to the pass receiving records but he got going late in the season when it was essentially over.

Against the host Rhode Island Rams a week later, the Huskies took a 14-0 lead on a second-quarter Chris Bradley one-yard dive and a Crowley to freshman Cooper Jordan 11-yard aerial in the third period. URI quarterback Kirk Lamboy directed his team to the win with a pair of fourth-quarter scores, a two-point pass and a calm point-after by Pat Reilly.

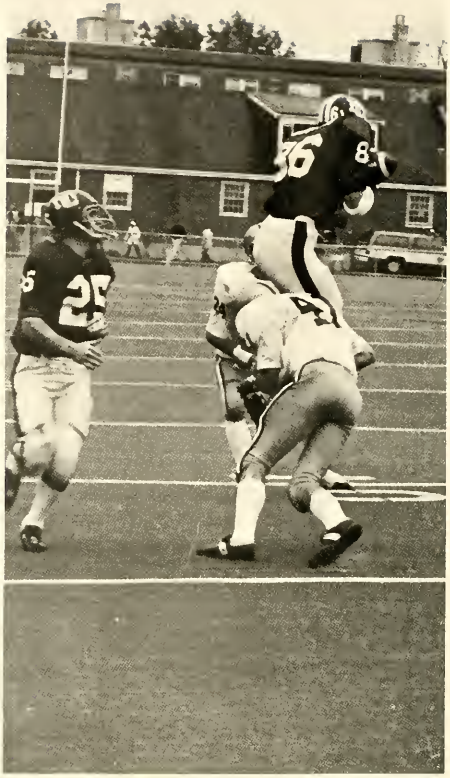
The annual Beanpot game with Boston University is always a must take-in and 1976's version was no different. It went BU 23, NU 20. Crowley had a good day in the air (16 of 37 for 211 yards) but it was a comedy of errors. Mostly NU's.

A first-quarter safety and two missed point-after attempts accounted for this loss. FRUSTRATION was firmly established in every teammate's heart.

The American International College rout, 53-31, on Oct. 2 was a show of strength that lasted two hours. At halftime it was 41-0. The 12 points in the second half resulted in the highest scoring output in the school's history. Crowley (9 of 17, 262) passed for



Clark threw. . .



. . . and Mike caught 39 of them.

two TDs, scored twice and ended a six-game losing streak that went back to the final three games of 1975. Foley had a pair of TDs, also.

At the time it appeared the doldrums of the 1976 season were about to end. But losses to Southern Connecticut in a rain storm, Springfield under clouds and New Hampshire in the sun intervened.

Budrow was the only note of interest for the Huskies in New Haven for the meeting with the Owls of Southern Connecticut. He had eight receptions for 73 yards. What was most important for Budrow was that he finally began to gell as a receiver. Of course, Mr. Crowley was instrumental in Mike's success. The senior end finished his career with five receptions and 101 yards in the gala Homecoming Game win over Central Connecticut and six catches for 97 yards in the finale in Maine.

What went wrong with the 1976 Huskies probably never will be known. They bettered their opponents in first downs, passes attempted and completed, passing yardage, total offense, plays and points (206-204). One big hint to the problem could be the difference in rushing yards (NU 1208, opponents 1892) and interceptions (NU 17, opponents 9).

The Huskies were weak on the rush and they played a lot of catch-up football in the fall of 1976.

The active seniors were: Stan Hillier, who gained AP, UPI and ECAC first-team recognition; Mike Budrow (ECAC Honorable Mention); Kevin Foley, team scoring leader; Mark McHugh; Rich Morrill; Paul Harrington; Bruce Hathaway; Jim Scanlon; and Tim O'Leary.

Huskies Taste Division I Challenge

BOSTON — The first-half decade of Jim Calhoun's coaching career ended quite fittingly and also with a more than positive outlook for the years ahead in the ever-challenging world of Division I basketball.

The young Huskies outmanned neighboring Boston University in its season finale, 84-77, a game which culminated a down year in terms of the won-loss record. The aggregate will read 12-14 for the year 1976-77, but it could have been much worse, even terrible.

Following the season opening win over Rider College, 62-59, a rash of losses struck Northeastern, as Merrimack, Maine, Stonehill, Army and New Hampshire picked on this confused bunch. Calhoun, unable to find the right five, grasped for straws and tried almost every combination plausible.

The Huskies always seemed to be one-step behind their opponents while on defense, accounting for the staggering statistic of being outshot from the foul line by 141 freebies.

A freshman from Dorchester, Bill Loughnane, was placed in the demanding position of running the show from the backcourt. Last year's second leading scorer, Dave Caligaris, was shifted from forward to guard, while Steve Ramos (also moved to the backcourt) and Dave Sheehan had problems starting their engines.

But following those troublesome first-half dozen games, Northeastern was able to place a few pieces of the puzzle into the right grooves and came away victorious in 11 of their final 20 games. Quite a feat considering the start.

"We tightened our belt a little bit trying to find the right combination," Calhoun would say after the season. "It was a trying year, but very fruitful. The biggest thing we did was build for the future."

# Siena Tournament

The Huskies won four of their next six contests and in the process finished second in the Siena Tournament (defeating Siena and losing to Oklahoma City). Their other loss, to Boston College, came at the buzzer. But an overtime loss to Colgate hurt the team's chances for a crack at .500.

"We controlled the game and led by 10 points with nine minutes to go," said Calhoun. "We were just picking up momentum at that point in the season. It slowed our progress for a while."

A two-point win over Assumption returned some lost optimism, but two days later in early February, little St. Anselm's stung the unsuspecting Huskies at home, 83—79.

In contrast, just 48 hours later, Northeastern tackled one of the major powers in the NCAA, Syracuse, before a crazed, packed house in the Manley Gym where the Orangemen have made it a habit of coming away winners the majority of the time over the past decade. The score: 110-70. "A disaster," said Calhoun.

Returning to friendlier surroundings, the team avenged an earlier season loss to the University of Maine.

Dave Caligaris tied a 21-year old record, scoring 38 points against the Black Bears. He would go on to bust

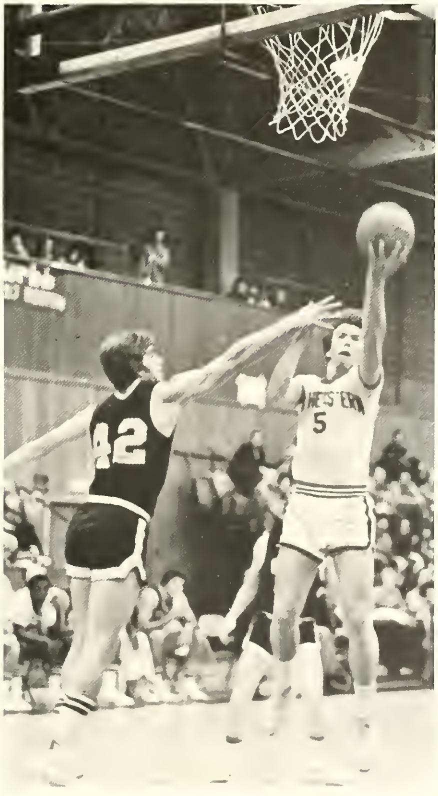
Charlie Hughes

gave him 'carte blanche' and he went and did it all."

The junior from Holliston, whose dad teaches Economics at Northeastern, was the team leader in almost every respect. In addition to his 20.9 average he was the team's fourth leading rebounder and was second in assists. His dead-eye accuracy from the 20-foot range and his tremendous driving ability made him virtually unstoppable.

His 28 points led Northeastern over Springfield but he was held to a rare nine points against Bridgeport, as the Division 2 Purple Knights dropped the Huskies, 92-78. Losses to New Hampshire and Boston University almost KO'd the club for good,



Bill Loughnane

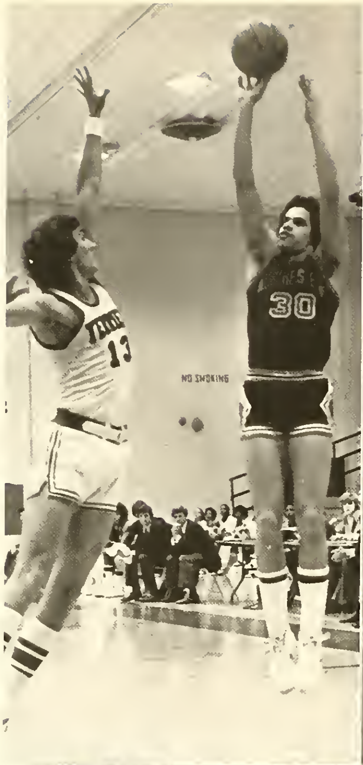
but they shook off the blows to win four of their last five rounds.

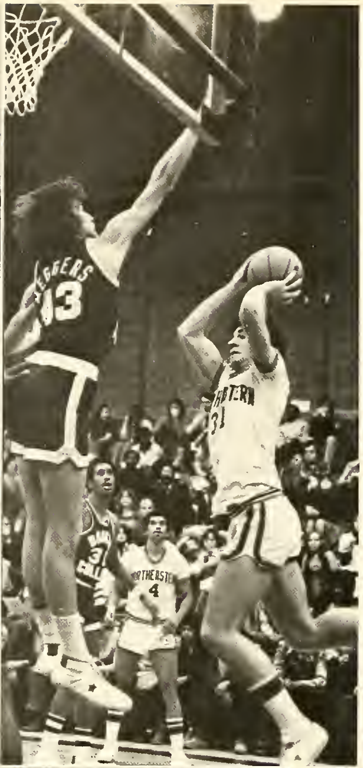
None were easy. First came a one-point win over the American International College. Next, a double-overtime thriller over spunky Brandeis and then a 60-52 victory against fellow co-op school, Drexel of Philadelphia. NIT-bound UMass stopped the win skein, but the Huskies showed what they were capable of doing, losing in the final three minutes, 82-76. Caligaris put on a dazzling performance with 28 points before the largest home crowd of the season.

The finale against BU ended the playing careers of team captain Keith Motley ("The best captain I've ever been associated with" — Calhoun), Steve Ramos (940 career points, good for ninth on the all-time list) and Charlie Hughes, whose mere presence on the bench accounted for many morale-lifting points.

What came out of the final five games was maturity, which should make the 1977-78 unit a much stronger one. With Dave Caligaris (20.9), Dave Sheehan (8.7 avg. and second leading rebounder), sophomore Doug Clary (8.0) and playmaker Bill Loughnane all returning, a winning record should be in store.

"It was a trying year," said the coach. "I can't wait until next year." Amen.





Coach Him Calhoun

A Change in 1976-77 — Hope for the Future

PROVIDENCE, Rhode Island — The difference of the two games and the teams was reflective in the scores. On Dec. 30 the Huskies had pulled a 4-3 overtime upset win over Providence. This night the 11-2 score, with the Friars on top, ended a disheartening but learning season for the Northeastern University hockey team — a very youthful one indeed in the season of 1976-77.

It ended, the season that is, with much hope, realistically, for the upcoming season. Eleven freshmen dotted Coach Fern Flaman's list and they managed a 9-13-0 Eastern Collegiate Athletic Conference record. The overall mark was 11-16-0, the 10th losing season in 11 years. Only the 17-12-0 slate in 1972-73 marred the "growth" of the hockey program.

Freshman defenseman John Gulon was the hero of the initial Providence-NU meeting in 1976-77 season at the fastly aging, and very controversial Boston Arena. The win was in the middle of a three-game winning streak.

A devastating three-game losing streak that was instrumental in keeping NU from its first ECAC Division 1 playoff picture in a dozen years followed. Losses to Colgate and Pennsylvania at the Arena concluded a homestand and, essentially, a chance at post-season thrills. Eight of the Huskies first 10 games were at home and one of the two away games was at Boston College.

That Boston College game not only gave real rise to hope for the existing season, but future seasons. For the first time in 10 seasons an NU team had won a hockey game at The Heights. A freshman forward, Mike McMillen from Green Bay, Wisconsin, scored the winner, while junior netminder Jim Bowman turned in one of his finest games with 38 saves. The final: Northeastern 5, Boston College 4.

Capt. Mike Holmes, who finished as the team's leading scorer while breaking his own scoring records for a defenseman, two goals from junior Mark Coates and one by Dale Ferdinandi helped make the dream upset reality.

That win came after an opening-season victory at Yale (6-3) and defeats from Harvard and the Ned Harkness-coached, Division 3-power Union College (3-2) in overtime. Clarkson, which was defeated by New Hampshire in the quarterfinals of the playoffs was the third team to beat the Huskies during the crucial three-game losing streak, was expected to do so, but the losses to Colgate and Penn can be pointed to as "must games" to win.

However, the playoff picture continued to fade in and out even though NU lost eight of 10 games from R.P.I. on Jan. 24 to Brown on Feb. 16, both at the Arena.

And then there was the Beanpot Tournament, number 25, mixed into the ECAC hockey scene of 1976-77.

For 24 years the Huskies were always in the "dog house" when Beanpot time arrived. This season was no exception.

A 10-5 loss in the first round to the eventual ECAC champion, Boston University, put to bed that the 25th Beanpot, the Silver Anniversary, might go to the annual sentimental

Capt. Mike Holmes

favorite Husky. No Way.

Boston College's revenge 6-4 win in the consolation put Northeastern's tournament record at eight wins and 42 losses. Harvard, which was vastly improving as the season progressed won its seventh title.

A shocker at Vermont on Feb. 19, when the Huskies recorded a 6-5 overtime win on freshman forward Dale Ferdinandi's goal, sent a small uproar through the late stages of the ECAC playoff outlook. But nothing materialized and the Huskies came back to earth with season-ending losses to BU (7-3) and Providence after a 10-5 win at Division 2-power Merrimack College.

The season had hints of the positive. Action on whether NU would continue as the only ECAC Division 1 member without its own home ice became important when the Arena facilities failed at ice making and the 7-6 win over Dartmouth occurred at BC's friendly McHugh Forum on Jan. 26. Five goals in the third stanza, two from Scott Gruhl in the game, made it possible. It was a proven fact that the Huskies, at least this young lot, enjoyed playing hockey on nice ice, especially Boston College's.

In the recap of the season, Mike Holmes improved on four of his own records and captured another. With his 10 goals and 33 assists, the junior readjusted Jack Grinold's 1977-78 winter press guide to read Holmes with: most assists season (33); most assists career (92); most points season (43); most points career (112); and most goals career (20). With one season remaining, Holmes had one more scoring record for a defenseman left to top — Dean Webb's 14 goals in the 1961-62 season.

Also, freshman center Wayne Turner, who led the team in goals with 17 and was its second leading scorer with 37 points, set a new record for most assists in a game with six against Massachusetts. The old record was held by Holmes with five versus Clarkson in 1974-75. Turner also registered seven power play goals and a hat trick against Merrimack.

Although the 1976-77 season wasn't a success record-wise, the prospectus for the seasons to follow was on the positive move. What was really needed, and it became quite apparent over this winter, was an actual commitment by the administration on whether to build an arena or buy the ageless Boston Arena.

The manner in which the team played under the horrid conditions supplied by the Boston Arena and the Northeastern University administration, made one wonder how a Husky hockey team would play a home game on REAL ice.

Bob France

A freshman forward.

Skiing

MT. CRANMORE, New Hampshire — Since turning varsity in the winter of 1970-71 ski coach Ed Elliott had been grooming his teams for the day when one of them would win anything.

On March 4, 1977, after finishing third in the Orsborn Division of the New England Intercollegiate Skiing Conference (NEISC) behind Plymouth State and Massachusetts, the Huskies put together a team effort to win the National local chapter of Invitation Alpine Tournament (NIAT).

It was the first-ever championship for the Huskies, who finished fifth in their division in 1974, and fourth in 1975 and 1976.

Freshman Steve Mitchell, the first Husky to ski at the NCAA Championships held a few days before the NIATs, dominated the two giant slaloms and slalom races with first-place finishes. Sophomore Jeff Lyon, who was the 1976 NEISC Individual champ, was second to his teammate in all three races. Mitchell, Lyon and Dean Maynard, another freshman were all Class A skiers when they arrived from high school to Northeastern.

The Huskies went into the final day of competition trailing defending champion Plymouth State, 14-12. A seven-point performance in the second giant slalom (there was no downhill for lack of snow) gave the Huskies the event and their first title. Mitchell, a 19-year-old from West Simsbury, Conn., was the NEISC's individual champ for 1977.

Dave Smith, the 1977 team's only senior from Waltham, Mass., headed a Husky trio that joined Mitchell and Lyon among that pivotal giant slalom Top 20 finishers. They were sophomore Steve Nickerson and freshman Dave Lineham.

"We're becoming a skiing power," said Coach Ed Elliott before the 1977 season started. It was starting to come true in 1977.

Indoor Track

Huskies Own NE Track — AGAIN

PRINCETON, New Jersey — The first Intercollegiate Amateur Athletic Association of America Championship that came the way of the Northeastern University track program was in the 1975 cross country season. The second, many felt, would come in the winter of 1977. It didn't.

Although it didn't, the seeds for the spring season had been sown with the highly successful 1977 indoor campaign. The Huskies dominated the New England track talk by racking up a 6-0 regular season record, and run-away titles at the Greater Boston and New England Championships.

Two runners went on from here to compete in Detroit at the NCAA Championship — Capt. Mark Lech in the 880 and miler Bruce Bickford. Both were the champions of New England in their events (Lech 600), as the Huskies racked up a record 70 points by also crowning three other NE champs on the University of Connecticut track. Awesome was the word.

But without the strength of 1977 outdoor captain Bill Johnston, the All-America hammer thrower who didn't toss the 35-pound weight indoors because of ineligibility, and without the total depth commanded by Maryland, Villanova, Army and Rutgers, NU could manage only a fourth-place, 16-point finish.

However, the talk at the end of the season as the Huskies prepared for the 1977 outdoor season, was all IC4A. Spring 1977 was the time for another IC4A championship.

The indoor season climaxed at UConn in Storrs. It was the fourth straight NE title that went to the Husky and the third straight 600 that went to Captain Lech, aka "Captain Clean." Five second-place finishes came with the five championship performances, most notably from Wayne Spinney, a "group B" runner who scored second spot to Kurt Stolle in the 1000.

Following the GBCs in which the team amassed 117 points and actually made a joke of the affair with more depth than any school in the area had seen since man discovered the Atlantic ocean floor, the Huskies had two warm-ups for the New Englands.

Hosting University of Rhode Island at the Cabot Cage, Head Coach Irwin Cohen ran his second team and won 69½-48½. At Boston College for the final dual meet of the indoor season on Feb. 12, the mighty eagle was swallowed by the Husky, 72-45. In this meet freshmen Tom Mortimer in the 1000 and Mike Haynie in the high jump turned in excellent performances.

But the New Englands, like the dual meets and the GBCs used to be, was the challenge of the season. Sophomore Ron Chambers, a product of Kingston, Jamaica, rewrote some more record-books by jumping a 24-3½ long and 49-10½ triple. Lech in the 600 (1:10.2), Tom Mortimer in the 800 (1:54.2), Stolle in the 1000 (2:12.5) and Bickford in the mile (4:04.2), a meet record, were all champs.

Roger Dupont, a junior shotputter, took a second to defending champion John Dupuis of Worcester State, who threw a record 58-9¼ on the final toss of the event. Dupont's heave was his best ever (56-6) while teammate Bob Otrando, a sophomore transfer from Southeastern Mass., had a third-place 54-7¼. The pair grabbed one-two at the GBCs and three-four at the IC4As with Otrando on top for the first time in the season.

Junior pole vaulter Paul Grant proved his recovery from a car accident the previous summer was complete when he jumped to a second-place height of 15-4. John Flora lost again to Providence's John Treacy in the two-mile, but improved his school record to 8:43.8. Frank Mortimer, Tom's older brother copped the second spot in the 440.

Spinney's claim in the 1000 epitomized the power of the 1976-77 indoor team, because he was a runner who wasn't good enough to get a uniform before the season. Remember that was BEFORE the season.

As for the dual season, there was, basically, only one meet to be considered in a wrap-up on the indoor season: Harvard.

Pre-season prognosis explained for one, the Huskies were going to be good and two, this was the last time the two teams would meet in Briggs Cage. The former prediction was true, but the latter proved false, since Harvard wouldn't be able to complete their new athletic complex before the beginning of the 1977-78.

Mark Lech is congratulated.

A Couple of "Trackies"

The 65-53 win improved NU's series standing with the Crimson to 4-8. Chambers began his second indoor season with a bang by establishing new Briggs Cage record in the triple with a 48-9 leap. He also erased Sal Mazzocca's 1947 long jump total (23-7) from the record books with a 23-9 jump. Mazzacca's mark was the oldest existing NU track record.

Lech started the season well also when he overtook Harvard's Gary Schmidt in the 600 to register a 1:12.8 time. A sweep of the 1000 led by the come-back kid himself, Ken Graham, proved pivotal in the meet. Graham's time was 2:14.8, as he pulled in ahead of teammates Kurt Stolle and freshman Kevin Prest.

It was, fully, another successful indoor season. Oh-hum.

1976 Spring Sports Wrap-Up

Since the yearly ritual of a yearbook is completed in early to mid-March, it is socially impossible as well as physically impossible to include the spring sports for the current year. So, in keeping with the tradition of incomplete Northeastern University Cauldrons, we will commence with a rundown of the 1976 editions of the Husky baseball and outdoor track teams, and crew.

Without an outdoor track, and we mean an outdoor track that runners use to compete, it would seem improbable that Northeastern could field a successful outdoor team.

In 1976, the Huskies posted a 5-1 regular season mark, while capturing the Greater Boston and New England Championships. The team scored 43 points for a fifth place in the IC4As and at the NCAAs, 1977 outdoor captain, Bill Johnston, took a sixth in the hammer.

Harvard was the only team to victimize the Huskies in the regular season, but revenge was sweet when NU totaled 94 points to the Crimson's 81 at the GBCs. Ron Chambers was a double-winner in the triple and long jump in his first varsity season, while Capt. Fred Frelow (220), Mark Lech (440- with meet and school records), Bill Johnston (hammer), and Mike Buckley in the six-mile garnered first places.

It was the third NE championship for the Huskies since the affair was started in 1964. Chambers was again a double-winner, while Johnston, Buckley, Bruce Bickford (steeplechase) and Lech became NE champions.

Lech's 1:48.4 time at the NEs, John Flora's 13:33.2 time in the three-mile at the Penn Relays, Bickford's 8:38.8 in the steeplechase at the NCAAs, as well as Chambers totals in the triple (52-¼) and long (24-4) created new Husky records.

The baseball team, for the second consecutive season, leveled with a .500 record. A 13-13 slate in 1976 followed a 12-12 total in '75. A win over Harvard by 1976's best hurler, Mark Krentzman saved the season on the final game.

Veteran pitching from starters Krentzman, Charlie Wright, Jim Walker, the 1975 captain, and relievers Jim Powers and Ken Carpenzano were not to be seen in 1977 as all finished up their eligibility in '76. Krentzman was the team's best pitcher over the spring with a 4-4 mark overall and 3-1 in the Greater Boston League, which was won by Brandeis. Faculty fielding hurt Krenztman. Walker, a lefty, managed a 1-5 record with the team's lowest ERA, 3.87. NU had 5-4 GBL mark.

Tom Burke, the captain in 1976, repeated as an All-New England outfielder. The speedy centerfielder batted .344, drove in 20 runs, slugged five homers and six doubles. In 25 games he hade just one error. Another 1976 All-New England choice, third baseman Joe Annese, carried a big stick with a .337 average, 26 RBIs and four homers.

Rich DeCristoforo, a senior who lost his starting first base job to freshman Joe Glynn (.293), proved that he was a total team player

Mark McHugh

by filling in for Coach John "Tinker" Connelly at shortstop and designated hitter. He batted .327 in 18 games.

Four times the team failed to record the 13th win as the season quickly neared its end. Walker was a victim twice, and it took a fine effort from four-year letterman Krentzman with a 4-2 win over Harvard at Parsons Field to do it. An 0-5 start aided in the Huskies inability to get on track. It finally came by midseason when they won nine of 13 games. Junior righty Bob Williamson, who finished 4-1 on the season, was 3-0 over that stretch.

As for the Husky on water, he sank in 1976. Coach Ernie Arlett's boys managed a 1-4 slate, only the third losing season in the program's 12-year history, however.

Arlett was troubled with finding the right combination in his eight boat, but a flu epidemic which plagued the team didn't help. A shift that brought Paul Martindale to the varsity remedied the problem in time for the IRAs. NU finished seventh in the IRAs run on Lake Onondaga in Syracuse, New York.

Northeastern finally got it together in its third triangular meet of the season when it topped Brown and Columbia on the Charles River. Capt. Tom Lowe (6-5, 195) in the five seat, George Dougan, in number three, John Sladek (6-6, 200), in number six, and Nick Bertozzi, at stroke, all rowed for their final season as did Martindale.

The crew's time of 5:57.5 in the May 1 meet with Brown and Columbia was one of the fastest on the Charles in 1976. Again, when they just lost to Pennsylvania in the final regular-season race by a deck-length, the Huskies recorded a fine time of 6:00.6.

At the Eastern Springs in Princeton, NU took a ninth, not bad for an ailing crew.

Women's Sports Keeps Growing

Over the fall of 1976 and the winter of 1977 Northeastern's women's sports continued to grow and aspire. With limited facilities at the Warren Center and more money from the Athletic Policies Committee by law (Title IX) the women's teams looked good with new uniforms for competition on the lumpy Ashland turf.

Prof. Jeanne Rowlands, fresh from her summer at the Montreal Olympics as manager of the US Olympic women's basketball team, resumed her duties as director of women's athletics. She even got a new office in the Cabot Building out of the deal.

In the fall field hockey, volleyball and tennis were the offerings. Led by Ellen Beauchamp, Sue Paylor, Brigid McNiff, Lesley Benson and goalie Janet Cope, the stickwomen posted a 4-3-2 record. It was the final season for Coach Marilyn Cairns, a well-respected and much admired coach and professor for eight years. She was leaving NU to pursue a doctorate after the spring women's lacrosse season.

Second-year volleyball coach, Diane Willcox, had the help of two of the Huskies finest athletes on her way to a 7-10 campaign. Basketball captain, Joanne Fitts and ex-basketball player Lynn Arturi aided the team with some fine play. Some excellent schools dotted the schedule, as two other seniors concluded their careers — Sue Huntley and Janet Gillis.

As for tennis, it wasn't a bad showing for a team whose school starts late and ends late. With a 5-3 record, Coach Dorett Hope was proud of her racqueteers. Capt. Patti Goulding was the only senior on the team. Underclassmen, Helene Magier (singles), Carol McKenna (doubles) Kathy Burke (singles) and Karen Dunn (singles). The highlight of the season was the day Boston University cancelled the final match because it was "too cold."

Coached by one of the country's well-known experts on collegiate athletics for women in Prof. Rowlands, the basketball team progressed to two post-season tournaments in 1977. Its success, however, was not as good as in the regular season which the Huskies finished 8-7.

The first post-season encounter was at the Mass. Association of Intercollegiate Athletics for Women (MAIAW) playoffs. At Bentley College's Dana Athletic Center in Suburban Waltham, Mass., the team lost

an overtime "classic" to Springfield College, 59-57. A week later, at the University of Connecticut for the Eastern Regional playoffs the season concluded at 8-10 with defeats from St. John's and UConn.

Capt. Joanne Fitts, with her 12.1 scoring average and strong board work had a senior year many athletes dream of. Beth Peterson, a freshman with a 10.7 average, seniors Sue Paylor, Nancy Dizio and Chris Brown, and junior guard Kathie Kearney were instrumental in the team's success.

Climaxing its best season with a 100-plus point effort, the Dorett Hope-coached gymnastics team recorded an impressive 12-7 slate. The winter of competition was sprinkled with an opening seat-squirmer with Hofstra University; a sweep of three tri-matches; and the peak win over Central Connecticut and Keene State at the Small Gym to end the season.

Benefitting from the superb coaching and leadership of Hope for the previous three campaigns, the 1977 edition of a Husky women's gymnastics team marked the arrival of another true varsity competitor for Northeastern. All-around Capt. Sally Beebe and Barbara Wilk, the only seniors on the squad, couldn't have gone out in a better manner.

All in all, the women's scene during the athletic seasons of 1976-77 was looking up: the direction it was headed ever since it took shape. The institution of Title IX provisions by the university administration was belated in arriving, but the Athletic Policies Committee made sure the law was abided by. It definitely was a good year for women's athletics at Northeastern.

BEFORE . . .

AND AFTER

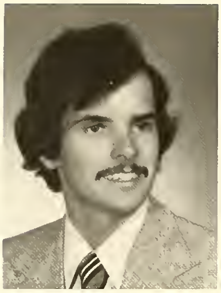
The Class
of
1977

Presenting in alphabetical order
those seniors who had their pictures
taken and submitted a statement to
accompany their portrait, followed by
those who submitted pictures only, and
the words of wisdom of those few who
chose to speak but not to be seen.

Ultimately, all are to be found listed
entirely in alphabetical order in the
index which proceeds the senior section.

Donald Ahern — Biology
My years at Northeastern have been memorable to me. My friends, my profs, my dreams of what is to be. Will life be fair, be kind, be just? Is some failing a necessity, or success a must?

Kokayi Alimayu — African-American Studies
"Education and work are the levers to uplift a people . . . education must not simply teach work — it must teach life . . . the Negro race, like all other races, is going to be saved by its exceptional men."
— W. E. B. Dubois, 1903

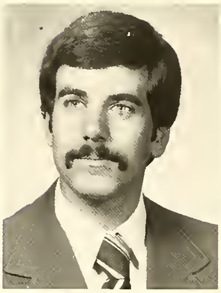


Donald Ahern

Alimayu, Kokayi

Robert Anastasio — Psychology
What we remember lacks the hard edge of fact. To help us along we create little fictions, highly subtle and individual scenarios which clarify and shape our experience.
J. Kosinski

Peter Anton — Management
"To laugh often and much; to win the respect of intelligent people; to earn the appreciation of honest critics and endure the betrayal of false friends. To know even one life has breathed easier because you have lived. This is to have succeeded."
— Emerson



Robert Anastasio

Peter Anton

Licette Arango — Pharmacy
"It has always seemed to me that the most difficult part of building a bridge would be the start."
R. Benchley

Joseph Araujo — Civil Engineering
"Aim for a star! Never be satisfied
With a life that is less than best,
Failure lies only in not having tried —
In keeping the soul suppressed."
H. L. Marshall

Licette Arango

Joseph Araujo

Iris H. Arbeiter — Education
Better is a dinner of herbs where love is,
Than a stalled ox and hatred therewith.
Proverbs

Steven A. Aronson — Education: Mathematics
"I am at a dinner party with some friends when suddenly a man walks in with a bowl of soup on a leash. He accuses my underwear of treason, and when a lady defends me, her forehead falls off . . . soon everyone is laughing but my laundryman, who seems stern and sits there putting porridge in his ears."
Woody Allen
Activities: Hillel Executive Board 1, 2, 3, 4; Dean's List; Kappa Delta Pi Honor Society 3, 4, 5.

Iris H. Arbeiter

Steven A. Aronson

Michael S. Arpino

Mark Bain

Michael S. Arpino — Civil Engineering
Learning has made up most of my life and I don't intend to end learning now. Northeastern University is my stepping stone toward the future. Thanks to my wife for the coaxing and taking my neglect.

Mark Thomas Bain — Political Science
We are as gods and might as well get good at it.
Activities: The Academy; Pi Sigma Alpha.

Lawrence Balick

Michael J. Barnes

Lawrence Balick — Education: Mathematics
All around, sad faces to the ground, why can't they see time as a lie. Oh, I wish that I could get them to imagine they can fly on high, fly so high, spread their wings and fly.
— N. Potter
Activities: Student Federation 2, 3, 4; Exasperated 2, 3, 4; Mellow 5; Exuberant 6: Hillel 3, 4, 5; NUFOS 3, 4.

Lynne Marie Barry

Carol A. Bartlett

Lynne Marie Barry — History
The wonderful thing about today is that it's brand new; no one has ever used it. "Today is the first day of the rest of your life." Life is for the present but memories are beautiful.
Activities: Omega Sigma; Photography Club, Secretary.

Carol A. Bartlett — B.S. Nursing
MGH, Modern Dance; Jazz; *Ballet;* '68 SAAB — '70 SAAB; Wheelie; "The end of the world is next week, Don't worry until then."

Alan S. Bass

Charles Baynes

Alan S. Bass — Pharmacy
"There is a book and in this book it's written of life, of experiences, of what has happened in the last five years to a life time. And at times we'll sit and we'll think and we'll remember the many chapters of this book. For it's from this book that we learn and it's from this book that we grow and it's from this book that we move on."

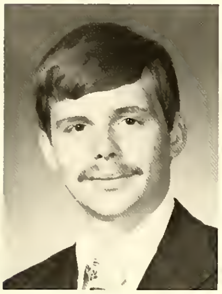
Charles Baynes — BET Electrical
Activities: WRBB; Black Engineering Student Society; Senior Communication Officer.

Frederick C. Beal

Thomas J. Beale

Frederick C. Beal — Pharmacy
A rational man acting in the real world may be defined as one who decides where he will strike a balance between what he desires, and what can be done. It is only in imaginary worlds that we can do whatever we wish.

Thomas J. Beale — Elementary Education
"I've been thinking now for a Long Time. How to go my own Separate Way. It's a shame to think about Yesterday, a shame. We've been running 'round in our present state, hoping help would come from above, but even angels there made the same mistakes in love, in love.



Dennis R. Beaudoin

Joyce E. Bedi

Dennis R. Beaudoin — Pharmacy
(Generalamine) — Action: increases gastric juices; Indication: effective in cookie overdose; Contraindications: none; Warnings: take with milk; Precautions: must be given by mouth; Adverse reactions: drowsiness; Ft. Bragg disease; Dose and Administration: 5mg. olive drab tablets.

Joyce E. Bedi — History
BSO(MTT!); MFA(RJD); MITHC(BL, WAS, JL, MC, CAB, JSF, DRK, VP, WCT [OR CWT], SF, EIN); NUCS(KRPG, JJ, RS, GMcD, SB); NU(TCECB, JMG, JI, BLA); BB (IJR); MWY:B&B ON THE ROCKS.

Irving D. Bell

Mary Ann E. Bell

Irving D. Bell — Civil Engineering
"You have to have suffered to be happy."

Mary Ann E. Bell — Accounting
"Do not follow where the path may lead. Go, instead, where there is no path and leave a trail."

Henry W. Beltram, Jr.

Christopher J. Bernard

Henry J. Beltram, Jr. — Industrial Engineering
Investing five years of my life in a Northeastern education has been the most worthwhile decision of my life. I can never repay my parents for their help when I've needed it most. Lisa, Phi Gamma Pi, and all my anxieties and depressions have made these five years unforgettable. I'm glad it's finally over.

Christopher J. Bernard — International Business
Try to put well in practice what you already know; and in so doing, you will, in good time, discover the hidden things which you inquire about. Practice what you know, and it will help to make clear now what you do not know.
Rembrandt

Ronald S. Bessette — Civil Engineering
Gymnastics Club 2; American Society of Civil Engineers, Student Chapter 3, 4, 5, Vice Program Chairman 4, 5; Huskiers and Outing Club 3, 4, 5; Chi Epsilon Civil Engineering National Honor Society; Tau Beta Pi.

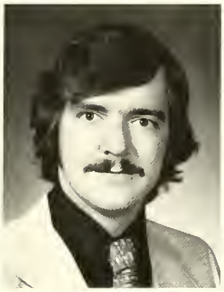
Richard P. Biagiotti — Education: Mathematics
It seems like it takes forever to get out of here. But now that I'm leaving, I ask myself, "Do I really want to?"

Ronald S. Bessette

Richard P. Biagiotti

George J. Blake — Pharmacy
Ratalin — Action: increases acetylcholine release in the brain; Indications: rodenticide, studenticide; Contraindications: interacts with Weckerlynn; Warning: do not take seriously, only in small doses; Precautions: may induce hysteria; Adverse reactions: CNS neuropathy; Dose and Administration: as tolerated.

Christine M. Bracci — Journalism
"A BA after one's name isn't as meaningful as a *BY* before it."



George J. Blake

Christine M. Bracci

Gary R. Buckman — Pharmacy
New life awaits, time it has no day.
New life awaits, here is your dream.
And now how does it feel?
No words will go with you, and now what is real?

Joan A. Budzinski — Modern Languages
"Do more than exist — live. Do more than touch — feel. Do more than look — observe. Do more than hear — listen. Do more than listen — understand. Do more than talk — say something."

J. H. Rhodes

Gary R. Buckman

Joan Budzinski

Daniel J. Cahill — Pharmacy
When I look back on all of those days, when all I expected was a tuition raise. I remember the time when I first entered that gate, never expecting such a horrible fate. But five years have passed and I must confess, I'll miss NU and its bureaucratic mess.

Leo W. Campbell — Criminal Justice
I hope I live long enough to pay back the loans I've taken to attend Northeastern.
SAC 4; Rifle Club 3, 4.

Daniel J. Cahill

Leo W. Campbell

Kevin M. Carroll — Political Science
B.S. Political Science; Cathedral High; Townie; 8:00 class; '67 VW Squareback; Marm in Fame; Under the clock in the lounge; National Park Ranger Boston — Grand Canyon? I leave thy greatness unexpressed, I leave thy fame to be guessed.

Deborah A. Karon Carter — Medical Technology
After five years of commuting, I still don't know which is worse: 1.) waiting at Park Street for an Arborway; 2.) getting stuck on the Southeast distressway; 3.) waiting in line for a parking space. At least Ken, we're a carpool.

Kevin M. Carroll

Deborah A. K. Carter

Sharon I. Celentano — Biology
I leave with fond memories of those people whom I have been fortunate to have met.
Chorus 2, 3, 4, VP 3; Student Union 3, 4, 5; Phi Sigma 4, 5; Student Center Committee 3, 4, 5, Vice-Chrmn. 4, Chrmn. 5; Social Council 5, Film Comm. 3; Husky Key 5.

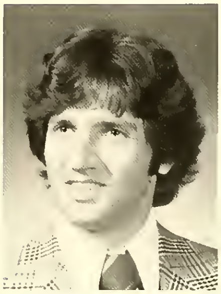
Peter J. Censullo — Management
Northeastern is an institution that embodies students from different backgrounds. The most rewarding experience that I have gained here is my relationship with people who shared different norms, customs and beliefs.

Sharon I. Celentano

Peter J. Censullo

Stanley Chamallas — Pharmacy
Dimethyltryptostan: Action: dopeamine agonist, hallucinogenic; Indication: effective in combatting mental stagnation; Contraindication: Smith Bros.; Mellethil; Warning: Nitrites lead to gas emission; Precaution: rapid intolerance; Adverse reaction: bilateral dislocation of patellas; Dosage and Administration: 50 and 100 mg. tablets.

Lisa M. Ciaschini — Physical Therapy
Ah, make the most of what we yet may spend, before we too into the Dust descend; dust unto dust, and under dust to lie, sans wine, sans song. sans singer and sans End.
O. Kahayyam



Stanley Chamallas

Lisa M. Ciaschini

A. Paul Cioto — Journalism
All hail aereopagitica, John Peter Zenga and the real world. In five years I've seen copy and pencils, typefaces, big cities and barnyards; famous pols and confidential sources. I've mastered my News and Enterprise. Now I'm ready to conquer the globe.

Amy L. Cohen — Biology
"All I kin say is when you finds yo'self in a peach orchard, ya don't go around lookin' for rutabagas."
Kingfish from Amos & Andy

A. Paul Cioto

Amy L. Cohen

Andrew T. Colamaria

Susan J. Connolly

Andrew T. Colamaria — Criminal Justice
"My four years at Northeastern will long be remembered as a developmental period for myself as well as for those around me. I would like to wish each member of the 'Class of 1977' a prosperous and beneficial future."

Susan J. Connolly — Secondary Education
Mirar el rio hecho de tiempo y agua y recordar que el tiempo es otro rio saber que nos perdemos como el rio y que los rostros pasan como el agua.

J. L. Borges

Gregory J. Cottman

Marilyn Cowan

Gregory J. Cottman — Criminal Justice
Five years at Northeastern have been long, but I have met interesting people and had experiences I will never forget. To those who remain, remember that, "Life is what you make it."

Marilyn Cowan — Nursing (A.S.)
Once you are real, you can't be ugly, except to people who don't understand.

M. Williams

Barbara A. Cox

Kent C. Crago

Barbara A. Cox — Criminal Justice
"I expect to pass through this world but once. Any good therefore that I can do, or any kindness that I can show to any fellow creature, let me do it now . . . for I shall not pass this way again."

Kent C. Crago — Finance and Insurance
So much for study, So much for school,
So much for dorm life and duck-hunting too.
Thanx PTL.

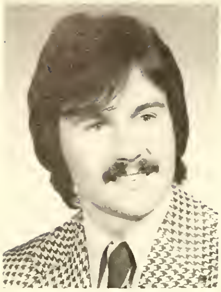
Maureen F. B. Cunniffe

Helen Cunningham

Maureen Cunniffe — Nursing
B.S. Nursing; Sigma Theta Tau; wife and mother; I leave behind the trials of college and aspire to meet the trials of my profession.

Helen A. Cunningham — Pharmacy
All men are alike — true in that the difference between those who received many talents and those who received few is presently erased without mercy. But untrue when it is a question of how they employed them: then, there still stands the frontier between life and death, as it has been drawn for all eternity . . .

D. Hammarskjold.



Paul J. Curran

Karen Dantone

Paul J. Curran — Electrical Engineering
"Isn't life strange, a turn of the page, can read like before, can we ask for more? Each day passes by, how hard will man try, the sea will not wait you know it makes me want to cry . . ."

J. Lodge

Member: Eta Kappa Nu; IEEE

Karen Dantone — Physical Education
Happiness is where you are and what you want to be. If you look you're sure to find the rainbow of your dreams. Tomorrow's fuller than a thousand yesterdays with the vision of a new day in your heart.

James C. Dates, Jr.

Ian Caperton

James Clifton Dates, Jr. — Medical Records
Freshman Football '71; Judo Club '71; Resident Assistant '73-'77; Iota Phi Theta Fraternity, Inc. '73; IFC '73.
"Without struggle, there's no progress."

Ian Caperton — Political Science
You sow an act and you reap a habit . . .
You sow a habit and you reap a character . . .
You sow a character and you reap a destiny.

C. F. Stanwood

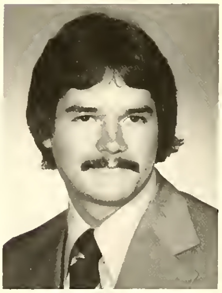
Joyce Ann Davies

John T. Dawley

Joyce Ann Dabies — Speech and Hearing
Northeastern University Speech and Hearing Association (NUSHA); Kappa Delta Pi, Secretary to Zeta Chapter.

John T. Dawley — Criminal Justice
Football 1, 2, 3, 4; Criminal Justice Advisory Council 1, 2, 3, 4; Criminal Justice Honor Society 5; Who's Who in American Colleges and Universities.

Pamela S. Dembski



Michael Derby

Pamela Stephanie Dembski — Medical Technology
"I've been going a longtime now, along the way I've learned something — you have to make the good times yourself, take the little times and make them into big times and save the times that are all right for the ones that aren't so good."

Michael Derby — Political Science
I cannot find correct words to describe the past five years, but if I ever write a book concerning them, it will be entitled — Fear and Loathing on the College Campus.

Wayne Desberg — BET Electrical Engineering
Charter member of the advanced demolition lab team; Co-Author of the How To Do It Electronic Lab Manual; Hey, Lloyd, don't forget the plug. Yeah, right, right . . . Remember the big rigs . . . and Murph, see you at the Caribe.

David C. Dibsick — Management
Romanticism, my mirror, reflect a future more clear than the past. Image be strong, healthy and rich. But most show love, scathing spiritual fire, to guide me along. Highlights, making spectrum, something, creating Beau T's out of nothing . . .

Wayne Desberg

David C. Dibsick

Frederick R. DiGregorio — Management
Since, no person is born with knowledge, just the ability to learn, the individual must be provided with an environment to facilitate learning. For many of us, Northeastern was a vital part of this environment. Upon graduation, we will always remember and feel the influence of Northeastern. However, we must remember to keep open minds, for we never cease to learn.

Richard A. DiLando — Finance and Insurance
"If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music which he hears, however measured or far away."

Frederick DiGregorio

Richard DiLando

Steven L. Ditman — Accounting
"Happy are those who dream dreams and are ready to pay the price to make them come true."

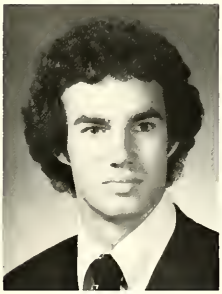
Denise J. Dudley — Health Education
Activities: NUHOC 1, 2, 3, 4, 5; NU Chorus 1, 2, 3, 4, 5; Librarian for Chorus 3, 4.
"As I look to the past, and I look to the present; may I have meaning for the future."

Steven L. Ditman

Denise J. Dudley

John Ebbets — Journalism
I leave this "unique" institution with many good friends and fond memories. About these I cannot say enough. To express my feelings about the school however presents a problem. As a little kid I learned "if you can't say anything good about something, don't." So I won't.

Richard E. Eckenroth, Jr. — Recreation Education
"No act of kindness, no matter how small, is ever wasted."
Aesop



John Ebbets

Richard E. Eckenroth

Mary Ellen Elias — Respiratory Therapy
"All things must pass. Where are the clowns? None of life's dreams will last. Send in the clowns. So I must be on my way, and face another day. Well maybe next year . . ."
George Harrison, Steven Sondheim

Cynthia Kurtz Ernest — Sociology/Anthropology
. . . Our lives shall not be sweared from birth until life closes; Hearts starve as well as bodies. Bread and roses! Bread and roses!

Mary Ellen Elias

Cynthia K. Ernest

Virginia Ewart — Physical Therapy
If you try to keep faith in your hopes and your dreams
In facing whatever life brings,
And you're grateful for life's little things
It won't matter much, you will see,
If things aren't all you would like them to be.

Nancy Fales — Criminal Justice
Memories: Orientation — Welcome to N.U.! Long lines — at registration, at the bookstore, at the parking lots; Co-op — "Have I got a terrific job for you."; Good courses, good professors, good friends. Memories I'll always cherish.

Virginia Ewart

Nancy Fales

Michael K. Frisby — Journalism
Five years at Northeastern University has been both a pleasure because of educational and technological experience I have received, and a struggle because of the many battles fought against Northeastern's bureaucracy. In the end, with all the battles past, diplomas given out, and administrators still administrating, it just goes to show that Northeastern University was no big thing.

Mildred M. Gabriel — Pharmacy
(Our . . .) Painstaking, Harrowing, And, Relentless, Mental Abstraction, Contributes Years of Health and Happiness.
Activities: A Dean's List 1, 2, 3, 4; Rho Chi Scholastic Award 3; Student American Pharmaceutical Assoc. 3, 4, 5; Rho Chi Honor Society 5.

Michael K. Frisby

Mildred M. Gabriel

Joseph F. Geary — Industrial Engineering
"Intellectual constructions that are not used until they are as comfortable as an old sweater are at best, temporarily ornamental."
R. E. Coffey

Joseph F. Geary

Donald S. Gleason Jr.

Patricia A. Goulding

Donald S. Gleason Jr. — Marketing
"FINALLY."

Patricia A. Goulding — Physical Education
Far away there in the sunshine
Are my highest aspirations. I may not reach them, but I can look up and see their beauty, believe in them, and try to follow where they lead.
L. M. Alcott

Ronald C. Graham

Milton L. Greenberg Jr.

Ronald C. Graham — Economics
Believe it or not, it took me four years to learn how to be curious. What a satisfaction!

Milton L. Greenberg Jr. — Journalism
You'll hear from me in 1990. I'm going to hijack a starship, sending seven thousand people past the sun. Our babes will wander naked through the cities of the universe . . .

John Gregory

Lee A. Griffiths

John Gregory — Economics
Mother Nature made it green, prettiest place you've ever seen. Given a voice, can you make a choice? Is it black, is it grey, is it yellow? All of this crying while the earth is dying. It's a shock they won't stop because of money. America is lost, figurin' the cost; you can hang your head in shame, it's disgusting.
S. Stills

Lee A. Griffiths — Accounting
Being is a state of mind;
Transmitted through our moods
And transformed into reality.

Anne R. Guarnotta

William T. Halstead

Anne R. Guarnotta — Psychology
Activities: Spectrum Staff 3; Co-Editor Spectrum 4, 5.
My five years at Northeastern have been a maturing experience. I have learned from my professors, fellow students and other acquaintances here to know myself and my capabilities. As graduation approaches, I feel a sense of anticipation and a greater confidence to face the world.

William T. Halstead — Pharmacy
(Tetraethylhead) Action: non-specific, long acting; Indication: Misconceptions' Contra-Indications: Vectrin: Delucalax: Warning: may cause plumpism: Precaution: do not take rectally; Adverse Reactions: color, rubor, tumor and dolor; Dose and Administration: 100 mg. Vaginal inserts.

Mark Hamel

Carol O. Hamilton

Mark Hamel — Mechanical Engineering
Activities: Chess Team 1, 2, Captain 5; Northeastern Chess Champion 1; Pi Tau Sigma 3, 4, President 5; Tau Beta Pi 4, 5; ASME 5.

Carol Ona Hamilton — Respiratory Therapy
Though I know I'll never lose affection,
For people and things that went before.
I know I'll often stop and think about them,
In my life, I've loved them all.
Lennon-McCartney

Dianne Hannah

Irving C. Hawkins

Dianne Hannah — Elementary Education
Faith
is the substance
of things hoped for
the evidence of things not seen.
Hebrews 11:1

Irving C. Hawkins — Health Education
"For the things we have to learn before we can do them, we learn by doing them."
Aristotle

Heidi A. Hill

Terri Hinkson

Heidi A. Hill — Drama/Communicatons
I am, where I am.
I know where I could have been, had I done what I did not do.
Tell me, friend, what I can do today, to be, where I want to be, tomorrow.

Terri Hinkson — Psychology
Activities: The Academy: Phi Kappa Phi.

Harriet Hirsch

Karin E. Holthaus

Harriet Hirsch — Elementary Education
There was once a time when "77" looked as distant as "82." A time when I looked ahead to finishing, not knowing until now that it's only the first rung on the ladder named "Beginning."

Karin E. Holthaus — Pharmacy
(Faceace) — Action: increases mobilization of sex hormone; Indication: used for chronic laughter; Contraindications: high altitudes; Warnings: always take at bedtime; Precautions: definitely habit forming; Adverse Reactions: disuse atrophy of the brain; Dose and Administration: As often as possible.

Jacqueline Horton — Nursing (B.S.)
I will serve Thee because I love Thee, you have given life to me; I was nothing before You found me, You have given life to me. Heartaches, broken pieces, ruined lives are why you died on Calv'ry, Your touch is what I longed for You have given life to me.

W. Gaither

Cliff M. Jennings — Transportation
After 6(!) years at NU I found co-op disappointing, the education usually good and my student activities very rewarding. But was it all really worth it? Hmmm . . . Thanks to Sammy, NUB, Stetson cafe, Stuart Soroka and Boston. "Just because a path is well-beaten is no proof it's the right one."

Jacqueline Horton

Cliff M. Jennings

John Jermain — Civil Engineering
The best move with time, and the rest become fixed in time, stagnating, in a world without change.

Lawrence Joseph — Elementary Education
"Education, to justify itself, should enable a man (individual) to use the full potential of his body, mind and spirit. It should also develop in him the ability to make the best use of his personality, surroundings and circumstances so that he may accomplish the maximum in life for himself and for others."

M. M. Yogi

John Jermain

Lawrence A. Joseph

Jeff A. Jurik — Recreation Education
Activities: Stucent Advisory Board 1, 2, 4, Secretary 5; Recreation Club, 1, 2, Treasurer 3; Intramural Basketball 4; Volleyball 4; Fenway Project; plus other activities which I won't put into writing. I came to Boston to attend NU, I wasn't sure why, it seemed like the thing to do. The years drifted by and at the end of five, they kicked my ass out and said "Go out and survive."

Larry C. Kaufman — Management
Nameless Coffeehouse 1, 2, 3, 4; Harvard Square 1, 2, 3, 4; Concerts 1, 2, 3, 4; Nightclubs 1; Haymarket 2, 3, 4; Fens; MIT Basketball Courts 2, 3, 4; Copley Square 1, 2, 3, 4; Northeastern Related Activities xxx 0'. Commons 2, 3; Sporting Events 1, 2, 3, 4; Reason for going to Northeastern: it's in Boston, it has co-op.

Jeff A. Jurik

Larry C. Kaufman

Mary E. Kelly — Accounting
Times are different. A steady supply of money is needed for tuition, books and bare essentials. But when graduation comes, it all seems worthwhile. The door is opened for you to the real world. It can be frightening but challenging.

Thomas F. Kelly — Mechanical Engineering
"Destiny is not a matter of chance, it is a choice; It is not a thing to be waited for, it is a thing to be achieved."

W. J. Bryant

Mary E. Kelly

Thomas F. Kelly

Leonard Kessler — Accounting
How promising are the future years, filled with hopes and dreams — devoid of fears, for life is a challenge which we accept; with all of life's cruel and merciless tests. And in the end I know that we will be, like Moses, who on the mountain did see, the Promised Land, stretching far and wide, all our thoughts of failure pushed aside.

Kevin C. King — Geology
Activities: Yacht Club/Racing Team 1 - 5; Student Federation 4, 5; Geology Club 1 - 5; Student Center Committee 4, 5.
A person leaving NU aware of his or her sights on the horizon can go anywhere. Fly high!

Leonard Kessler

Kevin C. King

Jeffrey S. Krah — Criminal Justice
"God and the soldier we adore in time of danger, not before the danger passed and all things righted. God is forgotten and the soldier slighted."
Anonymous

Geri Lambert — Sociology/Anthropology
I am being driven into an unknown land. The past grows steeper, the air, colder and sharper. The wind from my unknown goal stirs the strings of expectation. Still the question: Shall I ever get there? There, where life resounds, a clear pure note in the silence."
D. Hammarskjold

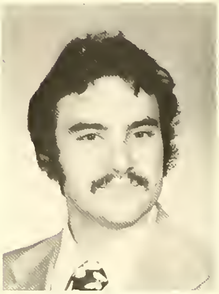
Jeffrey S. Krah

Geri Lambert

Richard C. Lambert — BET Mechanical
All started in "72." White Hall, the Cask, NU Underwater Society, Cape Cod Weekends, St. Stephens St., Punter's, PGP, Friday Night Parties, Nova Scotia, Florida, Volvo, Fairfield, New London, Bird, White Mts., Grades improved after married. Anyone for a shipwreck?

Mark S. Landman — Mechanical Engineering
"Procrastination is the one thing we don't put off until tomorrow."

Richard C. Lambert



Mark S. Landman

Edd LaRossa — BET Electrical
The Scripture says: "But these are written that you might believe that Jesus is the Christ, the Son of God, and that believing, you might have life through His Name."
John 20:31

Mary M. Leahy — Physical Education
Without Friends
No one would choose to live,
Even if he had all other goods.

Edd LaRossa

Mary M. Leahy

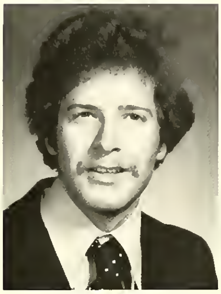
Wai Yiu Lee

Bruce Levick

Wai Y. Lee — Pharmacy
Five years of college education, may be vocational skills for many and knowledge of life for others, but it was the Art of Bureaucracy I learned most of all.

Bruce Levick — Accounting
Activities: Beta Gamma Sigma 4, 5; Beta Alpha Psi, President 4, 5.
Success is not a destination, but a journey.

Larry Liberfarb

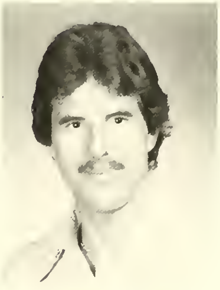


Kenneth Lidman

Larry Liberfarb — Accounting
"There are many people, who are far more gifted than I am in looks, intelligence, charm and a lot of other qualities. But, I tell you this, I try hard, I fight hard, I work hard and I remain an incurable optimist.
L. Weicker

Kenneth Lidman — Mathematics
"Oh, the night is passing slow, and of tomorrow I don't know."
Seatrain
I leave to NU 5 years and 41 books, and will always remember the summer of '75 with JT, frat parties and '76 with Ede.
NEURY 1, 2; Bridge Club 5.

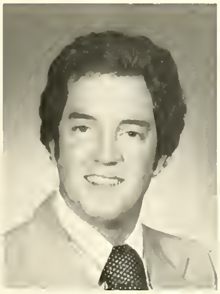
Robert B. Link



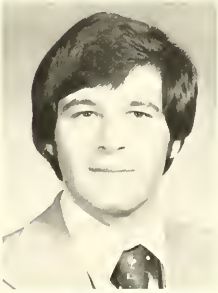
Joseph G. Lodie

Robert B. Link — Finance and Insurance
Veni, Vidi, Vici! The affluent NUB and the Co-op system worked for me. Alagaroo Nubbies.

Joseph G. Lodie — Health Education
Activities: Moderator, Dean's Student Advisory Board 3, 4; Student Federation 3, 4; Alumni Council 3, 4; Swimming Club 3; Dean's List 2, 3, 4; Executive Health Service Committee 4; Co-op Dean's Advisory Council 3.
"You can't always get what you want but if you try some times you'll get what you need."
Stones



Kevin P. Loflin

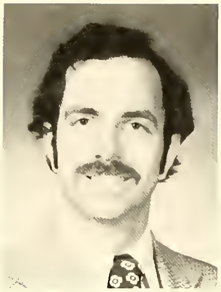


Christopher V. LoPilato

Kevin P. Loflin — Accounting
We stumble into college, all alone to confront the problems of our new environment. We fight to get involved trying to show concern. Then, there are the survivors, the ones who pull away from their stagnant being, assuming their stance as individuals.

Christopher V. LoPilato — Accounting
Activities: Burlington Campus 1, 2, 3; Student Advisory Committee 4, 5, 6; Beta Alpha Psi 7, 8, 9, 10, 11; Dean's List Student Recognition Every Quarter.
My relevant co-op experience provided me with the stamina to complete an academically successful college career.

Judith T. MacLeod



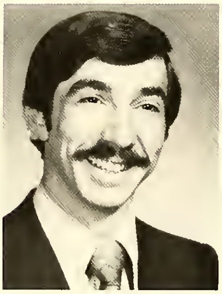
Joseph Magliozzi

Judith Tasha MacLeod — Respiratory Therapy
"Resolve to be tender with the young, compassionate with the aged, sympathetic with the striving, and tolerant of the weak and the wrong, Sometimes in life you will have been all of these."

W. Scott

Joseph Magliozzi — Biology
Summary of 5 years at Northeastern: those dynamite 4-6 p.m. Biology Labs; Organic Chemistry — just brutal! Doc Ellis and the fruit flies. Professor Mesoley is number one. Supersets at the Mystic Health Club. Equal development of mind and body, Frank Zane.

Gerard F. Malone

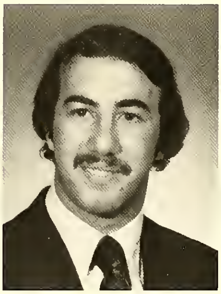


Michael G. Mangalo

Gerard F. Malone — Criminal Justice
Activities: NU Criminal Justice Advisory Council; NU Honor Society; NU Varsity Baseball; NU Freshman Football; Teaching Assistant, Psychology Dept.

Michael G. Mangalo — Marketing
To reach my goals I must risk as much as it takes. My coming to the U.S. meant risking a totally alien culture, and that could have been very hazardous for me. I am glad that my first goal, graduation, has been accomplished.

Bevan O. Manhertz



Michael Maranian Jr.

Bevan O. Manhertz — Accounting
Trust in the Lord with all thine heart, and lean not to your own understanding. In all thy ways acknowledge Him and He shall direct thy paths.

Proverbs 3:5-6

Michael Maranian Jr. — Medical Technology
. . . Like Columbus in the olden days, we must gather all our courage. Sail our ships out on the open seas, cast away our fears and all the years will come and go, and take us up — always up.

James Marchione

Catherine Marcella

James Marchione — Accounting
Activities: Beta Gamma Sigma.

Catherine Marcella — Physical Therapy
"To believe is to cling to impossible dreams then strive till you make them come true . . ."

K. N. Davis

Kit Martindale — Physical Education
Solitude is a silent storm that breaks down all our dead branches. Yet it sends our living roots deeper into the living heart of the living earth. Man struggles to find life outside himself, unaware that the life he is seeking is within him. Nature reaches out to us with welcome arms, and bids us enjoy her beauty; but we dread her silence and rush into the crowded cities, there to huddle like sheep fleeing from a ferocious wolf.

K. Gibran

John A. Marzinzik — Accounting
"If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music he hears, however measured or far away."

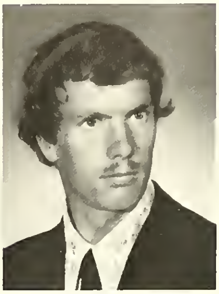
Kit Martindale

John A. Marzinzik

William D. Masselli — History
Thoughts of Life and thoughts of Death
Leave us all so very blind;
Can there be ways to look ahead
Without us looking behind?

Mark P. Mason
I wake to sleep, and take my waking slow.
I feel my fate in what I cannot fear
I learn by going where I have to go.

William D. Masselli

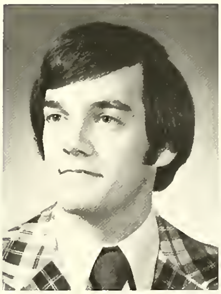


Mark P. Mason

Thomas E. Masse — Accounting
This NU composition is completed . . . in spite of certain faults . . . a form of expression, ideas . . . cumulation of labors, instructions . . . acquiring knowledge, techniques and an awareness of personal style . . . now equipped with tools to begin a new challenge . . . a different painting.

Laura Matt — Physical Therapy
Self-respect cannot be hinted, it cannot be purchased nor a is for sale, nor fabricated out of public relations. It comes to us when we are alone, in quiet moments, in quiet places when we suddenly realize that, knowing the good, we have done it, knowing the beautiful we have served it, knowing the truth, we have spoken it . . .

A. W. Griswold



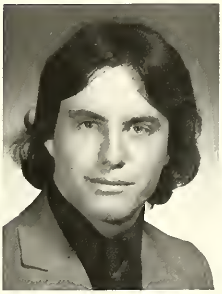
Thomas E. Masse

Laura Matt

Christian McCarthy — History
My experiences at Northeastern are good ones as well as not so good ones. The not so good ones were the traffic and crowds, but the good ones were many, such as the faculty, the life in general there and most of all, a lot of great kids.

Richard L. McCarthy — Criminal Justice
"She and I have clinched and clawed with the naked sea,
She and I have learned to defy and defend;
Shoulder to Shoulder we have fought it out —
Yet the sea must win in the end."

KC & I —



Christian McCarthy

Richard L. McCarthy

Kim L. McCummings — Special Education
There are thousands to tell you it cannot be done, there are thousands to prophesy failure; There are thousands to point out to you, one by one, the dangers that wait to assail you. But just buckle in with a bit of a grin, just take off your coat and go to it; just start to sing as you tackle the thing that "cannot be done," and you'll do it.

E. A. Guest

Gregory S. McCrone — Pharmacy
'Twas brillig and the slithy toves did gyre and gimble in the wabe; All mimsy were the borogroves, and the mome raths outgrabe Hobbits, Trees, Rocks, A Mountain Stream, Camios Cakes, Cheese, Christmas Skiing, Sunsets, Stars, Swimmings, Delta-9-Tetrahydrocannabinol, Ballet, Wolf, Friends, Birds. What is a bird but an unlimited idea of freedom?

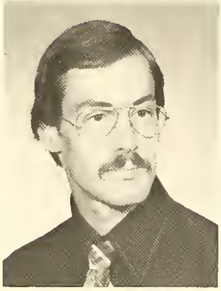
Kim L. McCummings

Gregory S. McCrone

Robert McDevitt — Criminal Justice
Activities: Crew 1, 2, 3, 4; Coach of Women's Crew 5.
Never; never; never; never; Give up.

W. Churchill

Michael W. McDonough — Criminal Justice
Activities: Scabbard and Blade 1, 2, 3, 4; Cadet Rangers 2, 3, 4; Ranger School — Summer of '76; Criminal Justice; Military Police. Rangers Lead The Way.



Robert McDevitt

Michael W. McDonough

Martin F. McGann — History
"What is past is prologue."

W. Shakespeare "The Tempest"

James A. McLaughlin — Medical Technology
Miles from nowhere, guess I'll take my time,
Oh yeah, to reach there.
Look up at the mountain I have to climb,
Oh yeah, to reach there.
Lord, my body has been a good friend,
But I won't need it when I reach the end.

C. Stevens

Martin F. McGann

James A. McLaughlin

Maureen J. Meehan — Nursing (B.S.)
"Let today be the remembering of the past, and the longing for the future."

Larry C. Mehegan — Criminal Justice
The road of life is long and is filled with many hardships and pleasures. Therefore, I ask that God grant me the serenity to accept the things I cannot change, courage to change the things I can, and wisdom to know the difference.

Maureen J. Meehan

Larry C. Mehegan

NORTHEASTERN UNIVERSITY
NO LEFT TURN

Diane Melanson — Nursing (B.S.)
"I expect to pass through this world but once; any good thing therefore that I can do or any kindness that I can show to any fellow creature, let me do it now; let me not defer or neglect it, for I shall not pass this way again."
Anonymous

Daniel R. Miller — Sociology/Anthropology
Activities: The Academy.
"Dead Heads."

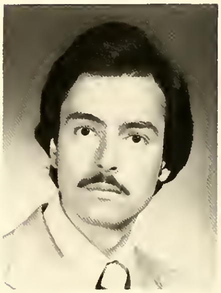
Diane Melanson

Daniel R. Miller

Rita A. Miller — Organizational Communications
Activities: Fencing Club 1; The Academy; Honor Thesis: Workshop for Women in Management.
I have learned that there is so much more to know. I have grown to the point where I want to grow more. The experiences of NU have been painful and profitable at the same time. I am now ready to move on.

Carlton Mills — Pharmacy
"Things do not change; we change."
H. D. Thoreau

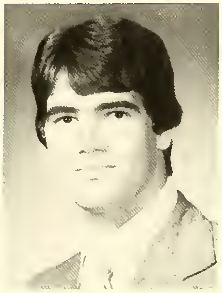
Rita A. Miller



Carlton Mills

Gregory D. Mollomo — Electrical Engineering
I wasn't in the rifle club, or the student union, These were not the things I loved, nor goals I was pursuing. Sat down with a book, the calculus I took began to read my bible. I took one look, and really got shook, hope was my only survival.

Gweneth Moorhouse — Marketing
"You receive the most when you give the best."
At Northeastern, I have rediscovered myself, my true potential. I have reasoned and gave charity and goodwill to others.



Gregory D. Mollomo

Gweneth Moorhouse

John C. Morris — Pharmacy
Activities: SAPHA 2, 3, 4, 5.

Laurie Morrison — Physical Therapy
Activities: Chorus 1; Water Polo 2; Bouve Honor Society.
"Seek ye the way though the distance be great, though the way be long, keep thy course, o son. Across the waters is thy path."
Old Polynesian Chant

John C. Morris

Laurie Morrison

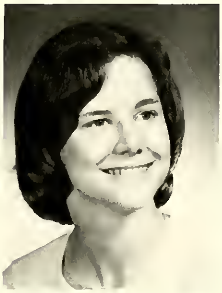
Marie Mosca

John M. Mosey

Marie Mosca — Physical Therapy
Activities: Kappa Delta Pi; Physical Education Majors Club, Secretary.
To smile in the face of tragedy yet act appropriately is a major component of life. You are what your experiences make you; may you always hear and heed those messages!

John M. Mosey — English
Activities: Editorial Board of What's N.U.?, Burlington Campus Newspaper 1; Spectrum 3, Spectrum Editor 4, 5.
If nothing else, I have learned during my time at the world's largest private university how to stand in line and almost like it.

John Murphy



Kristine Nasinny

John Murphy — BET — Electrical
Hello Bruce! Co-author of How to do it electronic lab manual. Hey Lloyd it's on fire! I think we need three boxes of shells for loungeball. Australia, Australia, beergardens and the skellar; Kiplin' Road; Bingo, Bingo.

Kristine Keehner Nasinnyk — Pharmacy
"Clouds come floating into my life from other days no longer to shed rain or usher storm but to give colour to my sunset sky."

R. Tagore

Activities: SAPHA 3, 4, 5; Chorus.

Bruce Newbrough

Richard O'Brien

Bruce E. Newbrough — Chemistry
The five years I have spent at Northeastern were not always easy, but no one said they would be. But for knowledge I have gained, the experiences that have helped me to grow, and, above all, the people I have met, I wouldn't have had it any other way.

Richard O'Brien — Biology
Inventor of the lounger one; Think we can get this elevator to go sideways? Last time we saw our heroes Rocky and Bullwinkle; How long is it? Pieces of eight; T with a humper; Goodnight overture; common spleenwarts.

Paul O'Connell

Jonathan Peace

Paul O'Connell — Criminal Justice
Too easily we forget that life is the pain-filled cry of every human being to be heard; to be loved. Joy is the moment when that cry breaks through and someone hears it. My HOPE is to be HEARD. My GOAL is to HEAR the cries of others.

Jonathan Peace — Criminal Justice

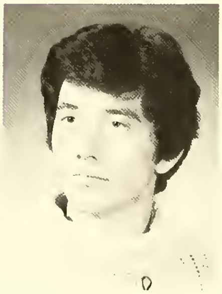
Armand J. Paradis

Joel A. Perlmutter

Armand J. Paradis — Biology
I may be able to speak the languages of men and even of angels, but if I have not love, my speech is no more than a noisy gong or a clanging bell. I may have the gift of inspired preaching. I may have all knowledge and understanding all secrets; . . . but if I have not love, it does me no good.
Corinthians 1:13

Joel A. Perlmutter — Journalism
Activities: Freshman Government 1, Chairman of Grievance Committee; Delta Chi 2, 3, 4, 5; Sigma Delta Chi 3, 4, 5, Vice-President; Dean's List; Varsity Hockey Statistician 2, 3, 4, 5.

Helen Perrier

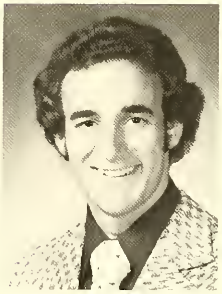


Livio D. Poles

Helen Perrier — Accounting
"Like Columbus in the olden days, we must gather all our courage. Sail our ships out on the open sea, cast away our fears and all the years will come and go and take us up — always up."
Seals and Croft

Livio D. Poles — Electrical Engineering
Mermaids allure me away from fields of vectors, But inherently I adhere to the flame that holds me near. Speculative ideas and abnormal sheers of all those dears, and their power although perplexing is enough to hold the rest of me.

Richard Priesing



Paul T. Proly

Richard S. Priesing — Criminal Justice
Activities: ROTC 1, 2, 3, 4, 5; Scabbard and Blade 2, 3, 4, 5, Clerk 4, Commander 5; NUFOS 3; Dean's List 2, 3, 4, 5.
These college years have been ones of great personal growth and change. I have learned and matured much because of and, at times in spite of Northeastern, and am thankful for it.

Paul T. Proly — Criminal Justice
Activities: Dorm Council 2, 3; Intramural Football 1; Intramural Volleyball 1; Dormitory Softball 1, 2, 3; Dean's List 4, 5; Punter's Pub 1, 2, 3, 4, 5; Cask and Flagon 2, 3, 4, 5; "No Hands" 1, 2, 3, 4, 5.

Cheryl Proto

Nancy C. Rawson

Cheryl Proto — Medical Technology
Activities: Modern Dance Club 2; Jazz Dance Club 2, 3, 4; Silver Masque 2, 3, 4, 5.

Nancy C. Rawson — Biology
In youth, it was a way I had to do my best to please, and change, with every passing day to suit other's theories. But now I know the things I know, and do the things I do; and if by chance I don't succeed, my tuition please! I'll ask of you.

Edward Rhoads — Criminal Justice
Activities: Rifle Team 1, 2, 3; Karate Club 2, 3, 4.
"The louder he proclaimed his honesty, the faster we counted our spoons."

Theodore Ricketts, Jr. — Mathematics
"I am an individual. I form my physical environment. I change and make my world. I am free of space and time. I am a part of all that is. There is no place within me that creativity does not exist."

Edward Rhoads

Theodore Ricketts

Carol Rico — Accounting
"I hardly suppose I know anybody who wouldn't rather be a success than a failure,
Just as I suppose every piece of crabgrass in the garden would much rather be an azalea!
O. Nash

Richard L. Rogato — Criminal Justice
I'd like to thank God, my family, Beverly, and my friends for helping me be what I am today.

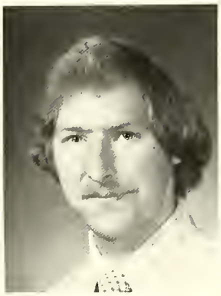
Carol Rico

Richard L. Rogato

Jeffrey H. Rosen — Management
"And you will hear of wars and rumors of wars; For nation will rise against nation, and kingdom against kingdom, and there will be famines and earthquakes in various places: all this is but the beginning of the birthpangs."
Matthew 24

Frederick L. Rowe — Pharmacy
(Rowe Wolfia Serpentina) Action: Consult Hoyle; Indication: whatever; Contraindication: Alcohol; Warning: may increase hydrocephalus or pokerinania; Adverse reaction: depletion of copper; Dose and Administration: thin wafers, 52 per carton, take 5 prn.

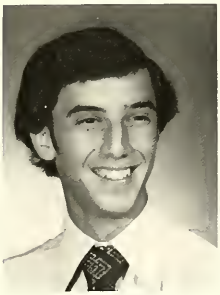
Jeffrey Rosen



Fred Rowe

Joel S. Rublin — Accounting
Humanity's Final Exam — "Do we really understand that each of us is here only for all the others?"
"So selfishness is no longer valid, no longer rational. The chicken is now out of the egg, humanity out of the womb. The umbilical cord has been cut. It is everybody now or nobody."
R. B. Fuller

Richard Rudolf Jr. — Power Systems
"If you have a goal in life that takes energy, is interesting and challenging, you will always look forward to see what the new day brings . . ."
Activities: NU Band; IEEE; Chorus; Eta Kappa Nu; Tau Beta Pi.

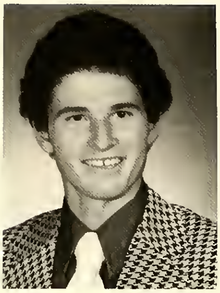


Joel S. Rublin

Richard Rudolf

Stephen St. Cyr — Accounting
My career at Northeastern has been hectic. I realize my education is only beginning. I've learned how to think and how to adapt in order to achieve the most of my opportunities. I'm in a constant struggle to improve myself and looking forward to the rewarding years ahead.

Anita M. Santoro — Physical Education
Activities: Bouve Dean's Student Advisory Board 4; Physical Education Majors Club 3, 4, 5; Director, Intramural Volleyball 4.

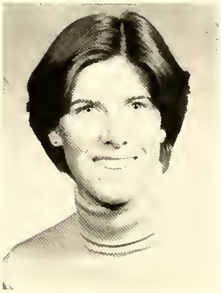


Stephen St. Cyr

Anita M. Santoro

Karen Lee Schindehette — Pharmacy; "No one can build his security upon the nobleness of another person."
W. Cather

Valerie A. Sauer — Physical Education
"If anyone tells you I achieved something without struggling at it do not believe him. But if he tells you I struggled hard and achieved something, then you may believe him."
T. Megillah



Karen L. Schindehette

Valerie Sauer

Hilda L. Shand — Elementary Education
Activities: Iota Phi Theta Sweetheart; Black Caucus; Food Service Committee.
"Life ain't been no crystal stair, it's had tacks, splinters, and boards all torn up . . ."
L. Hughes

Elissa P. Shuman — Education: Mathematics
Activities: Dean's List 1, 2, 3, 4, 5; Hillel Executive Board 1, 2, 3, 4; NUFOS 3; Kappa Delta Pi.
"Experience all you can in life — for experience is the number one educator."

Hilda Shand

Elissa Shuman

Valerie Simms — Education: Human Services
. . . Five years have come and gone, however, the memories of my years at Northeastern will long remain a part of me.

Michael J. Smith — Political Science
Swim Club 2; *Soundings:* Nixon's the One . . . Vietnam . . . McGovern . . . Navy Yard closes . . . Watergate . . . Energy Crisis . . . Stagflation . . . Liberalism . . . Resignation . . . Peace at Last . . . Apathy . . . Jerry Who? . . . Fred Harris for President . . . Pollution . . . Is democracy dead? . . . Mao, rest in peace. Politics is an art. However, Government is the Science.

"You have to live free or die."

Major J. Stark

Lee Stepner

Dennis L. Story

Lee Stepner — Marketing
Pondering over my formative years at college, one begins to wonder, was the correct institution chosen? Northeastern has proven to me beyond all expectations that a quality education can still be obtained at such a large cosmopolitan institution.

Dennis L. Story — Electrical Engineering (BS/MS)
Activities: IEEE 6-9; Treasurer 8, 9; Eta Kappa Nu 7-11; Tau Beta Pi 7-11, Treasurer 10, 11; Engineering Joint Council 8; RCA Scholar in Engineering; President's Award for outstanding scholastic achievement.

Diane Stowe

Marcel Strain

Diane Stowe — Nursing (B.S.)
Whose woods these are I think I know, his house is in the village though;
He will not see me stopping here to watch his woods fill up with snow.
The woods are lovely, dark and deep, but I have promises to keep,
And miles to go before I sleep, and miles to go before I sleep.

R. Frost

Marcel S. Strain Jr.
Where did non-violence get Martin Luther King? In the end . . .
The youth of a nation are the trustees of Posterity.

Martha Sturgell

Eileen Surette

Martha Sturgill — Nursing (B.S.)
Activities: NU Christian Fellowship 1, 2, 3; Sigma Theta Tau 3, 4, 5; Phi Kappa Phi achievement awards 2, 3; Pinning Committee.
Upon graduation, having survived five years of the uncaring, factory-like atmosphere of Northeastern, I can only say, "Praise the Lord it is over."

Eileen Surette — Elementary Education
"Don't walk in front of me — I may not follow. Don't walk behind me — I may not lead. Walk beside me — and just be my friend."
A. Camus

Barbara Sutherland

Jeffrey Thewlis

Barbara Sutherland — Biology
Do not go gentle into that good night, old age should burn and rave at close of day; Rage, rage against the dying of the light. Grave men, near death, who see with hinding sight, Blind eyes could blaze like meteors and be gay, Rage, rage against the dying of the light. D. Thomas

Jeffrey Thewlis — Pharmacy
(1-H, 5 -H, Lunazide; Wolfbane) Actions: causes rerouting of neuroelectric impulses in the areas of the brain concerned with thought processes. Uses: used to provide patient with a general state of apathy and severe sedation; Indications: a.) use indicated effective in avoiding the Dean's List and removal from academic probation. b.) possibly effective for avoiding graduation; Contraindications: not to be used when patient is suffering from Dementia Paralytica; Warnings: patient must not be allowed to drive, must not be used in mixed company; Precautions: may lead to necrospermia; Dosage and Administration: 10% ointment for application to erogenous zones; 1500 mg tablets to be taken with 100 ml. of Ethanol.

Philip Thomas

Maureen Tracey

Philip Thomas — Pharmacy
(Furfural) Action: direct follicular stimulation; Indications: Locontel Alopecia Furfurus Capitus; Contraindications: Furgone, Drug Store's 41 + $; Warning: may cause excessive hormonal secretion; Precautions: protect from light, may induce Hirsutism; Adverse reaction: Tinea Barbi; Dose and Administration — Apply locally PRN.

Maureen E. Tracey — Elementary Education
"You have touched me and I have grown."

Mark Travis

Ellen Tsapatsaris

Mark A. Travis — Journalism
Activities: Iota Phi Theta Fraternity Inc. The Onyx; Northeastern News.

Ellen Tsapatsaris — Criminal Justice
"I am older than I was, but younger than I will be."

Robert S. Underhill — Criminal Justice
Activities: CJ Student Advisory Council; CJ Academic Standing Committee; Started and organized College of CJ Honor Society, President.
"Goober Lives!"

Anthony J. Vaudo — Electrical Engineering
"The time is gone
The song is over,
Thought I'd something more to say."
R. Waters

Robert Underhill

Anthony J. Vaudo

Philip Vecchione Jr. — Electrical Engineering
Homeless; Pru; Beantown; Kenmore; Friends; Crowds; Packies; Parties; Clubs; Streets; Guns; Knives; Police; Physics; Coffee; Allnighters; Co-op; Corporations; Cockroaches; Commuting; Concerts; Chemistry; Friends; Cards; Penthouse; Libraries; Galleries; Smiles; Common; Hill; Charles; Biking; Tennis; Fenway; B-Ball; Sox; Pizza; Music; Motorcycle; Maturity.

Sharon A. Vogelaar — Nursing (B.S.)
"Something's lost, but something's gained in living every day. I've looked at life from both sides now . . ."
J. Mitchell

Philip Vecchione

Sharon Vogelaar

Marty Waldman — Electrical Engineering
"Mahts"
Activities: Rifle Club 1; Photography Club 1; Flying Clubs 1, 2, 3, 4, 5.
"What, me worry?"

Dana Walters — Power Systems
Activities: Hus-Skiers 1; IEEE 2, 3, 4, 5; Eta Kappa Nu, President 5.

Marty Waldman

Dana Walters

Sabrina Ware — Spanish
El major profesor es uno que es un profesor y un studente al mismo tiempo. Conosco solamente uno, y el se llama Senor Jaramillo! Que buena persona!

Lucia Warner — Medical Technology
"I want to learn what life is for, I don't want much I just want more . . . I'd cure the cold and the traffic jam, if there were floods I'd give a dam . . . I'd like to plan a city, play the cello, play at monte carlo, play Othello, Move into the White House, paint it yellow . . . I'm like a child who's set free at the fun fair, every ride invites me and it's unfair . . . saying that I only get my one share . . . Give me the time to turn the tide, Give me the truth if once I lied, I'll have everything."

Sabrina Ware

Lucia Warner

Daisy Watson — Elementary Education

Sharon Watson — Education: Mathematics
Activities: Intramural Basketball, 2 years; Winter Carnival Queen '76-'77; Ebonette Girls' Basketball Team, 2 years; Queen of Iota Phi Theta Fraternity '75-'76; African-American Institute Freshman Orientation Staff, 2 years; NUFOS 5; Huskey Key Society, Social Council, Skip Wright Memorial Fund Staff, Senior Week Committee, Yearbook Staff, Mass. Representative of the Advisory Council for the Right to Read Program, Dean's List.
"I've Only Just Begun to Live."

Daisy Watson

Sharon Watson

Richard A. Weisberg — Management
"They said Northeastern was a factory. They said Northeastern was a large impersonal mass of white buildings. They said the students were apathetic. Northeastern is what you, as an individual put into it, and I received much from Northeastern."

Clifford White — BET — Electrical
Activities: Vice president Black Engineering Society 1974-1976.

Richard Weisberg

Clifford White

Melanie White — Special Education
"Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge Him and He shall direct thy paths."
Proverbs 3:5, 6

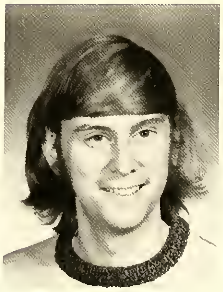
Joanne Wido — Physical Education
Speak gently to yourself.
Speak freely in praise of all you are.
Speak clearly with pride in all you've been.
Speak bravely with hope for all you may become.

Melanie White

Joanne Wido

Robert L. Wile — Economics
It's been a long and hard five years, but, I've acquired knowledge, a tremendous amount of personal growth and still made a point to enjoy myself in the process. I succeeded.

Curtis R. Williams — Criminal Justice
The prospect of impending graduation forces the gaining of a new perspective on education for five years. We have struggled to master masses of information in hopes of passing tests. The disguised, real objectives, have not slipped by — constructive thought patterns, and self-awareness.



Robert Wile

Curtis Williams

Lorraine C. Wilson

Lorraine C. Wilson — Medical Record Administration
Living in the city how would it be to wake with the city in my windows and not a stretch of travel between us.

Robin Zeitz

Robin Zeitz — Physical Therapy
"Don't work for my happiness my brothers — show me yours — show me that it is possible — show me your achievement and that knowledge will give me courage for mine."
Ayn Rand

Alyse Winston

Alyse Winston — Psychology
"God, grant me serenity to accept the things I cannot change; courage to change the things I can; and wisdom to know the difference."
— unknown

Jasper Childs — Administrative Education
In retrospect; The Northeastern experience revealed the obvious conclusion: The cycle of life is a tough grueling, exasperating challenge. A challenge attacked by the strong; ignored by the weak. I thank Northeastern for instilling in me the strength needed to combat anything and everything in the giant puzzle of life.

Adena Wirkerman

Adena Wirkerman — Physical Education
"Just want to thank all the great friends, fellow-students and professors alike, I got to know, and how each guided me through; to see the light, to help me bend, grow, and persevere, and to mold myself into what I am."

Stephen F. Crimmin — Journalism
Betraying rustic origin, I packed my vague intentions of becoming a journalist and left Vermont. Four years of cigarettes, self-doubts and study later, I found myself a Boston Globe Correspondent. What happened in between, while it may interest you, astonishes me.

Ronald Zaycer

Ronald Zaycer — Pharmacy
Well, it's almost time —
To the professors who gave me the knowledge;
To the counsellors who gave me the guidance;
To the Bursar who gave me the bills;
To my parents who gave me the money;
Most of all to Boston and friends,
and the women who made it worth staying at N.U.

Mary Lou Hagerty — Nursing B.S.
I have put my trust in Yahweh our God and Creator . . . "There will be universal peace, and all military academies and training camps will be closed down. Everyone will live quietly in his own home in peace and prosperity, for there will be nothing to fear. The Lord himself has promised this."
MICH 4:3,4
The Living Bible

Gail Kaminskas — Criminal Justice
If education is well sought,
Despite the school one will be taught.
and if one's smart it may be found:
any monkey can wear a cap and gown,
but none can claim he is a fool,
for now knowing less of life's rules
than the graduates of the past.
And he who thinks where sits the scroll,
There he sits as the higher class —
Does but sit with a monkey's ass.

Arunas Jonas Kuncaitis — Psychology
"If you have built castles in the air, your work need not be lost; that is where they should be. Now put the foundations under them."
Henry David Thoreau

William H. Newman — Mechanical Engineering
Pi Tau Sigma 3, 4, 5
Tau Beta Pi 3, 4, 5
Phi Kappa Phi 4, 5
ASME 4, 5
Engineering Joint Council

Richard Oliveri — Criminal Justice
"Graduation Or Bust!"
Karate Club 1, 2, 3
Photography Club 5

Edward P. Otto — Mechanical Engineering
It took a long time to arrive for it kept
just out of reach but now it's here.
For this is the First Day of the rest
of my life.
And my life and future are finally mine.

Kehinde Olawande —
Nothing can take the place of persistence.

Catherine St. Pierre — Nursing
"A saint is a sinner revised and edited."

Christine Sullivan — Nursing LPN
If one advances confidently in the direction of his dreams, and endeavors to live the life which he has imagined, he will meet with success unexpected in common hours.
— Thoreau

Ambrose C. Uzoma —
"The N.U. co-op system is a whole army of knowledge which has greatly rewarded me. I shall urge every student to make maximum use of this unique and rare opportunity."

Lee Walsh — Recreation Education
Chronically five years older but many additional years more mature in education and experience through friendships created that has made me a better person due to a learner awareness of my concern for others. It is hoped that this loss will contribute to a more peaceful civilization as an example to those that follow.

Carol Webster — Nursing B.S.
"One could do worse than be a Swinger of Birches."
Robert Frost
Gratis to the dramatis personae of "The making of a Nurse 1977." Room, my family, Shaz, Chery M., Baby Pratt, Froggy, Edna, Marilyn, CCGH, NEBH, and the ducks at the pond.

Harris Yoffa — Communications
Silver Masque 4, 5
WRBB 1, 2, 3, 4, 5.
I leave 156 mailbox combinations for Melvin Hall
My thanks to V.A.
Some thoughts for the Bursar's Office
A brand new phone for the Cauldron
A key for Dean Sochacki
My co-op job for Professor Miller
A lasting impact in someone's mind
without very much
A sound cue for the curtain call.

Robert B. Buckley — Criminal Justice
With Gratitude: to the people who had faith in me.
to the person who was patient and waited for me.
to the person who wasn't able to see this day.

Cathy M. Davenport — Political Science
Youthfulness is not to be taken for granted.
Expand and broaden your directions and the fruits of your efforts will bear wisdom at a time when youth is no more.
Enjoy life.

Gerald C. Harrington
The greatest essentials of happiness are something to do,
something to love and something to hope for.
Those who have fewest regrets are those who take each moment,
for all that it is worth. It will never come again, for worse,
or better. It is ours alone, we can make it what we will.

Mark Van Doren

Barbara-Jean Teshko — Mathematics
"Increasing knowledge leads not to conquest only but to utter defeat as well, for one learns not only of new potentialities, but also of new limitations."

Isaac Asimov

Kim D. Allyn

Kim D. Allyn
"Life's battles don't always go to the stronger or faster man but soon or late the man who wins is the man who thinks he can.

— Anonymous —

In Memoriam
Brutus Wright III

Been a long time, brother
Since we all gathered in Philadelphia
to say our good-byes,
and see you off.
Mama and Dad cried the hardest
they knew you were going home to stay.
Don't put a lamp in the window, mother.
I shan't be home tonight.
But she lit the lamp anyway,
believing that someday
you'd return.
We all did.
And we're waiting Skip
In patient expectation,
to embrace you with open arms
and glad hearts.
And we'll continue to wait,
for time has no meaning.
God called you home, brother
because
he loved you more
than we did.
We can't fault him for that.
And
Every time the sun shines,
I know
you're touching his heart
We miss you, Skip.

— M. Walker

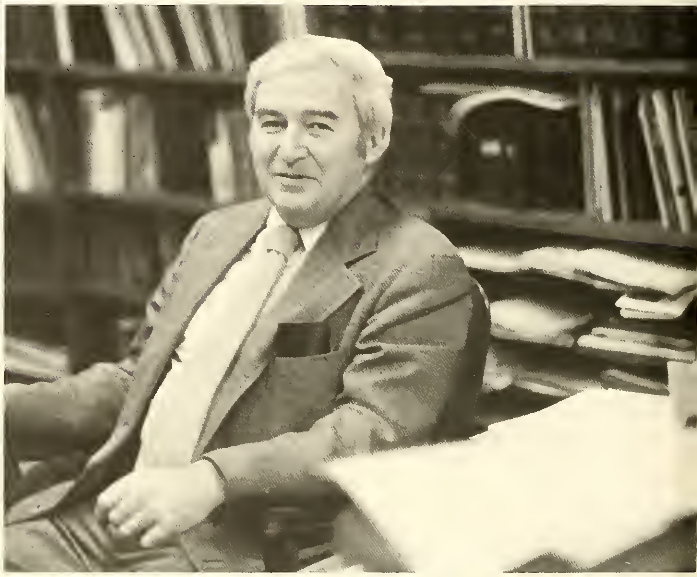
Kenneth G. Ryder, President

Harry T. Allan, Provost

Asa S. Knowles, Chancellor

John A. Curry, Vice-President,
University Administration



Daniel J. Roberts, Jr., Vice-President, Business

Edmund L. Deltano, Vice-President, Finance

Philip R. McCabe, Dean of Admissions

Roy L. Woolridge, Executive Vice-President of Cooperative Education

Eugene M. Repucci, Jr., Vice-President, Development

Loring Thompson, Vice-President and Dean of Planning

Royal K. Toebes, Vice-President, Alumni Affairs

Alan A. Mackey, Dean of Administrative Services

Charles M. Devlin, Acting Director of Financial Aid

Christopher F. Kennedy, Dean of Students

Paul M. Pratt, Dean of Co-operative Education

Dr. Arthur Davis, Jr.,
Director of the African-American
Institute

Joseph P. Zabilski,
Director of Athletics

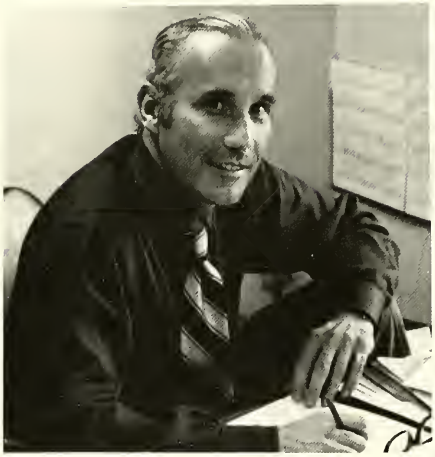
Peter J. Franks,
Assitant Dean of Students

Judy Link, Assistant Dean of Students

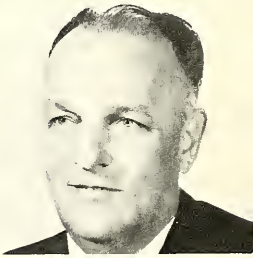
Anthony J. Bajdek,
Associate Dean of Students

Edith E. Emery,
Associate Dean of Students

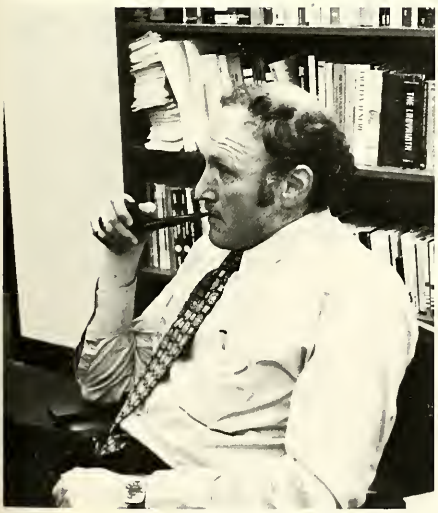
Roland E. Latham,
Associate Dean of Students



Edward W. Robinson,
Associate Dean of Students

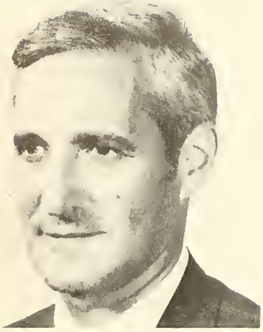


Frank E. Marsh, Jr.
Dean of Education

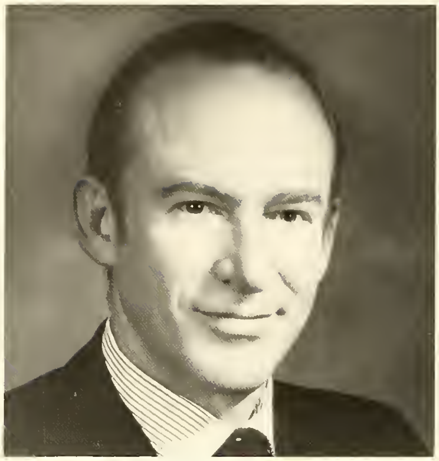


Norman Rosenblatt, Dean of Criminal Justice

Richard E. Sochacki, Associate Dean of Students



Melvin Mark,
Dean of Engineering



Geoffrey P. E. Clarkson,
Dean of Business Administration

Dr. Paul M. Lepley,
Dean of Boston Bouve

Juanita Long, Dean of Nursing

Albert Soloway, Dean of Pharmacy and
Allied Health

Walter Jones, Acting Dean of Liberal Arts

Gladys J. Kitchell,
Treasurer, Student Activities

Harvey Vetstein, Associate Dean of Students

Kenneth M. Edison,
Assistant Dean of Students

Rosalyn J. Drawas,
Assistant to the Dean of Students

John C. O'Byrne,
Dean of Law School

Pictured here you will find some of the culprits who were responsible for these 320 pages. Some of the staff were so busy (such as your editor) that they weren't able to be photographed. But, for those lucky few whom we caught off-guard . . .

John Jermain, Photography Editor

Melanie White, Managing Editor

Lucia Warner, Associate Editor

Dennis Naughton, Sports Editor

Chuck O'Neil, Asst. Photo Editor

Sharon Watson

Gladys Kitchell

This yearbook has been the culmination of five years at Northeastern. Much time and effort has gone into this book. At this point I would like to thank:

- — Everyone who helped me even in the smallest way
- — Roz, Beth and Gladys who had the patience to put up with me for the year even when the yearbook took me away from my responsibilities
- — To Dean Vetstein for being so understanding
- — To everyone in Student Affairs and the university who had to put up with my demands
- — To my staff for their patience and perseverance
- — To Martin Bernstein who picked up all my pieces in the Fall so I wouldn't go crazy
- — And finally to everyone I haven't mentioned specifically, but thank you anyways.

I hope that 20 years from now you will be able to look back and say that that was the way it was.

— Mary Ann E. Bell,
Editor,
1977 Cauldron

Taylor Publishing Company Linsco
